

## GERMANS TO USE EVERY MEANS OF KEEPING LEADERS

ALLIED DEMAND FOR SURRENDER OF WAR CRIMINALS WILL BE RESISTED TO THE UTTERMOST

### OFFICERS PLEDGE LIVES

Impossible to Form Government Which Will Surrender Men Demanded in Allied Note, Count von Bernstorff Asserts

By Carl D. Groat  
By United Press Leased Wire

Berlin—Germany will resist to the uttermost the Allied demand for surrender of Teuton war guilty, according to statements of prominent leaders today.

"The whole government thinks and acts as I do," Matthias Erzberger, minister of finance told the United Press. "We are in complete agreement with the will of our people." Erzberger added, Erzberger is credited with being one of the strongest men in the government who forced Germany to sign the Versailles treaty.

Field Marshal von Hindenburg and General Erich Ludendorff, whose names are prominent in the list of accused, both take the stand that no officer shall surrender himself voluntarily upon delivery of the demand, the Lokal Anzeiger said.

It was denied officially that Germany will propose to the Allies that the war guilty be tried before a neutral court. Germany's only proposition will be that the accused be tried before a Teuton court at Leipzig with the Allied powers fully represented.

The entire list of accused will be published Saturday or Sunday, according to semi-official information.

Government officials were in constant conference today. Phil Scheide-mann, chairman of the foreign affairs committee had a long conference with Herman Mueller, minister of foreign affairs and President Ebert.

The entire note, covering the list of war guilty, was expected to be delivered tonight or tomorrow through either the French or British charge d'affaires. Baron Kurt von Lersner, former head of the German delegation in Paris who resigned rather than transmit the list of war guilty to Berlin, arrived here today.

"The Allied demand for such men as von Hindenburg, Ludendorff and Mackensen, whom all the Fatherland loves and whose guiltlessness is above doubt, must be hindered at all costs," he declared.

"If Germany delivers these leaders she signs her own death warrant," von Lersner continued. "If she refuses this shameful demand, then her enemies too, again will have respect for Germany."

The national union of officers, it was announced, has pledged the lives of its members in opposition to the deliveries and called upon the nation to "stand firm."

"I am entirely certain the Allies cannot get together in Germany any government which can accomplish the delivery of the accused men," Count von Bernstorff, former ambassador to the United States told the United Press. "I believe you have been long enough in Germany, he said, to correspond, that you must realize nobody here even is going to attempt to bring about their surrender. It would be simply out of the question to attempt to lay hands on von Hindenburg."

Bernstorff reiterated his willingness to surrender as far as he personally is concerned. Characterized the Allied leaders as a "handful of power-blind politicians" Count Max Montagu said he "no longer felt bound to his previous offer to surrender himself."

"If it were possible to increase the folly in the world, which for the last eighteen months has been ruled by a handful of power-blind politicians, then it has been done in this delivery list," he added.

Herr von Mayer, recently appointed charge d'affaires at Paris, refused to return to his post to accept the Allied list "as was learned. He will remain in Berlin."

Paris—The Allies do not have any intention, for the moment, of modifying article 228 of the peace treaty. It was announced today, following the meeting of the council of ambassadors.

The Allied governments, according to the announcement, regard it as unparaphable that Germany recognize her obligation to carry out all the terms of the treaty.

Article 228 is the clause specifying that Germany "recognize the rights of the Allied and associated powers to bring before military tribunals persons accused of having committed acts in violation of the laws and customs of war."

The council of ambassadors today announced that the Allied governments had decided unanimously that the list of German war guilty will be handed to the German government officially at the earliest possible moment.

The list will be presented to the German chancellor by M. Demareilly, French diplomatic agent in Berlin, who will present at the same time the Allied covering note.

Text of the covering note, which had been held up, was approved by the council today and will be telegraphed to Demareilly. The French representative probably will present the list and the covering note to Gustave Bauer, the German chancellor, this evening, it was said at the French foreign office.

The text of the covering note was not made public.

The council of ambassadors, it was

## Must Answer In 7 Days To Avert Strike

Railroad Shopmen Will Lay Down Their Tools If Satisfactory Answer to Wage Demand is Not Received Before

By United Press Leased Wire

Detroit—Seven days grace was given today by the United Brotherhood of Maintenance of Way and Railway Shopworkers, to the railroad administration in which the workers demands for an increase in wages may be met.

If the increase is not forthcoming at the end of that period, it was announced at the meeting here of the national committee of the organization, the men will be instructed to drop their tools.

Without a dissenting vote, the national committee late yesterday voted to authorize the proposed strike.

The action covered all railroads in the country. Although it will not affect other railroad workers, the maintenance of way men said the roads will deteriorate so rapidly without their care that traveling will be extremely dangerous.

Reuben Wood, legislative representative of the brotherhood at Washington, declared the railroad administration had been in "collusion" with the railroad interests.

He believed, he said, that the policy of the administration has been deferential on the wage demand until March 1, when the roads are to be turned back to private owners.

Allen B. Parker, grand president of the brotherhood said advice from Washington representatives indicated no agreement would be reached.

Fear Strike Epidemic.  
Washington.—An epidemic of railway strikes may break out immediately after the roads are returned to private control March 1, unless a definite agreement is speedily reached by the railroad administration and union representatives on the question of increased wages.

This was evident today, as some of the union spokesmen began manifesting a new tone in discussing their conferences with Rail Director Hines. Heretofore all strike talk has been kept in the background and the negotiators have expressed themselves as satisfied with the progress being made.

There is believed to be no likelihood of a great general strike, either before or after the roads go back to their owners. But union leaders confess they are facing difficulty restraining their men. If no settlement is reached a number of trades are expected to walk out.

J. D. Malloy, vice president of the Brotherhood of Maintenance of Way employees, was ready today to "serve notice on Hines that he has only seven days left in which to make a plain answer to their wage demands. This virtual ultimatum was contained in a resolution passed by the union officers at a conference in Detroit yesterday.

It was learned that W. G. Lee of the Brotherhood of Railway Trainmen has notified Hines that early in March the trainmen will consider themselves released from their pledge to the president to hold their demands in abeyance pending an effort to reduce the high cost of living.

"It doesn't look very hopeful," Malloy said today before going to the conference with Hines. "I wouldn't be surprised at a strike of my union."

NEW YORK CLEANS AWAY SNOW DRIFTS AS STORM SUBSIDES

THREE DAY EMBARGO ON NON-ESSENTIAL TRAFFIC IS REQUESTED BY MAYOR HYLAN

By United Press Leased Wire  
New York—A three day voluntary embargo on unessential traffic began today at the request of Mayor Hylan, so that thousands of men and motor trucks may be released to aid in the gigantic task of clearing away the snow that has paralyzed travel and business here since Wednesday.

The mayor's proclamation exempted such carriers as were engaged in delivery of foodstuffs, coal, milk and newspapers.

The high winds that packed the snow in mountainous drifts and caused tidal waves along the shore had subsided and with the forecast that the snowfall would cease some time today, railway lines doubled their efforts to clear their tracks and resume service. Street cars and taxi lines were still completely paralyzed and the city's elevated railways and other out of business. Fourteen inches of snow has fallen since Wednesday.

Five persons have been killed in accidents resulting from the storm. The property damage will run into hundreds of thousands of dollars, especially along the coast, where piers, cottages and hotels were wrecked by high waves.

RUBBER COMPANY PAYS \$6 AS MINIMUM WAGE

By United Press Leased Wire  
Akron, O.—The Goodyear Tire and Rubber Company today announced the adoption of a minimum wage scale which affects 25,000 employees. It was effective Feb. 15 and March 1. All male employees are to receive a minimum of \$6 per day. All women workers are to get a minimum of \$4 a day. Increases of 10 to 12 per cent are granted piece workers.

learned, will not meet again until after the coming conference of Premiers Lloyd George, Millerand and Nitti in London.

## WILSON IS STILL FIRM IN STAND ON TREATY LANGUAGE

HITCHCOCK INFORMED THAT PRESIDENT IS OPPOSED TO CHANGING MEANING OF COVENANT

### DEMOCRATS MEET TODAY

Little Probability that Acceptable Program Will Be Agreed Upon But Leaders Will Learn How Various Senators Stand

(By L. C. Martin)  
By United Press Leased Wire

Washington.—Democratic senators in conference today, instructed Senator Hitchcock to aid in every way possible the bringing up of the treaty in the senate for reconsideration on Monday.

The decision of the conference was unanimous, Hitchcock said. Hitchcock will decide later in the day whether to make public a letter he received from President Wilson ten days ago concerning reservations and which he read today to the conference.

Senators said the letter reaffirmed the president's position of opposing any reservations that would change the meaning of the treaty.

The letter, endorsed Senator Hitchcock's position.

One senator on leaving the conference stated in his opinion the president's attitude had been slightly modified. This senator was more hopeful of ratification.

Washington—Democratic senators met today at the call of Senator Hitchcock to discuss their program in the treaty discussion which is to begin Monday in the senate.

There was little likelihood that any program would be agreed on which would prove acceptable to the whole democratic minority. The chief result of the meeting is likely to be that Senator Hitchcock will get a clear idea how the various senators stand, for his guidance. He will go into senate Monday with a following divided at least as much as Senator Lodge's. Lodge is assured of the support of 35 of 40 republicans; Hitchcock may have a much smaller percentage of support, though he is counting on 43 of the 47 democrats.

Hitchcock was prepared to tell democrats today that President Wilson's position is unchanged. He has had no direct communication with the president, Hitchcock said, but has been made acquainted with the fact that Wilson stands today just as he stood when he wrote the letter to the Jackson Day dinner, that is, against any change in the meaning of the treaty through reservations.

Senator Borah today continued his quizzing of presidential candidates and possibilities by writing to Governor Cox of Ohio.

Borah asked Cox to say whether he favors unqualified ratification; requested he state whether he favors giving the British empire six votes to one for the United States in the league assembly and how he stands with reference to a national referendum on the league covenant.

Grand Jury Member Testifies in Trial

DEFENSE IN TRIAL OF SENATOR NEWBERRY TRIES TO PROVE WITNESS' MEMORY IS BAD

By United Press Leased Wire  
Grand Rapids, Mich.—The efforts of the defense in the trial here today of Senator Truman H. Newberry and 134 aids on election fraud charges centered on breaking down the testimony of Charles S. Potts member of the federal grand jury which returned the indictments.

Attorney George Nichols of the defense put Potts to a number of severe memory tests to demonstrate that the witness was incompetent to testify by recollection.

Potts admitted that he could not remember all of the testimony presented before the grand jury by three hundred witnesses.

Potts testified yesterday that Judge John M. Harris, Boyne City, swore before the grand jury that he had received \$800 salary and \$400 expenses for acting as field agent for Newberry.

REFeree DECIDES AGAINST WINNER; POLICE ARE CALLED

By United Press Leased Wire  
Baltimore—Police were called last night to escort referee O'Brien from the ring after he had given a decision against Pat Moore of Memphis at the close of his 12 round bout with Roy Moore, Baltimore.

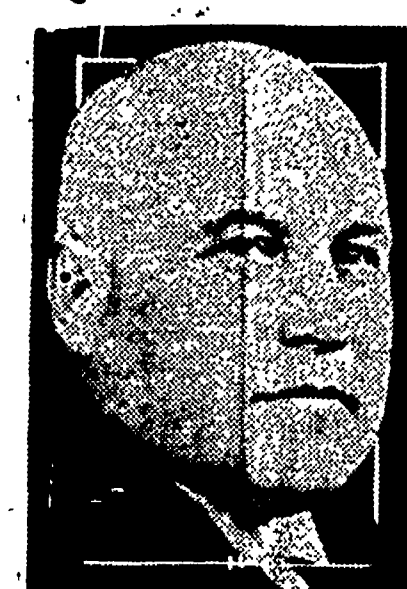

The Memphis boy gave Roy a boxing lesson and landed as many as five blows in succession frequently throughout the bout without getting one back. He used Roy's face as a target and seldom missed with either hand.

TODAY'S ISSUE WILL BE ISSUED IN FALL, PALMER SAYS

By United Press Leased Wire  
Plattsburg, Mo.—The issue of today will be the issue in the fall campaign," A. Mitchell Palmer, United States Attorney General, told an audience here last night.

Palmer spoke to aid in the campaign to elect a democratic congressional representative from the third Missouri district.

## QUITS CABINET

FRANKLIN K. LANE

## Secretary Of Interior Lane Quits His Post

Franklin K. Lane Leaves Resignation With President Wilson Today—Planned to Leave the Cabinet Several Months Ago

By United Press Leased Wire  
Washington.—Secretary of the Interior Lane has forwarded his resignation to President Wilson and it has been accepted it was announced at Lane's office today.

Lane visited the White House early today and it is understood he carried his resignation with him at that time.

Lane's resignation is effective March 1.

Lane announced several weeks ago that he intended to quit the cabinet but declared he was holding up his formal resignation because he did not wish further to burden President Wilson during his illness.

Later reports were circulated that Lane had changed his mind at the solicitation of President Wilson himself, but these stories were denied by Lane.

At the White House, it has been said several times that the president already has in mind the man who he will choose to succeed Lane.

Lane, according to his friends, is leaving the cabinet because he finds it difficult to live in Washington on \$12,000 a year, the same reason assigned by former Secretary McAdoo and Attorney Gen. Gregory for leaving the cabinet.

When Lane leaves the cabinet only four members of the official family the president selected in 1913, when he entered office, will remain. One of the four, Secretary of the Treasury Houston, was recently transferred from the department of agriculture to the treasury. The other three are Secretary of the Navy Daniels, Secretary of Labor Wilson and Postmaster Gen. Burleson.

## LIQUOR MEN TRY TO BURY DEMOCRATIC PARTY WITH BOOZE

BRYAN CHARGES NEW YORK AND NEW JERSEY GOVERNOR WITH ENDEAVORING TO WRECK PARTY.

By United Press Leased Wire  
Miami, Fla.—Charging Governor Alfred E. Smith, New York, and Gov. Edward I. Edwards of New Jersey with having "entered upon the task of burying the democratic party in the grave with the saloon," William Jennings Bryan, in a statement to the United Press today, answered the Smith and Edwards speeches made at a dinner given to National Democratic Chairman Cummings in New York Thursday night.

Replying to a request for a statement, Bryan said:

"Who will now accuse me of doing injustice to Mr. Cummings? He shows no interest in the democratic party. His chief business seems to be to act as a sounding board for the champions of the liquor traffic. He lends official sanction to the political progress of a criminal business which has been outlawed by the conscience of the nation."

Governor Edwards and Governor Smith, both of whom owe their election to a lawless business which conspires against public morals, have entered upon the task of burying the democratic party in the grave with the saloon. If their fight rests upon their individual merits it will be a farce. If the brewers and distillers finance it, the pre-convention campaign will make the Newberry campaign look like a Sunday school picnic.

"It is fortunate for the country that Edwards and Smith have raised the black flag early. Both parties will be warned. Who will be the Edwards and Smith among the republican candidates? Is our party the only one to be disgraced?"

LOSES POWER OF SPEECH WHEN HE SLAYS HIS WIFE

By United Press Leased Wire  
Detroit—"I can't talk. I lost my speech when I did that thing," were the words Robert Henry Costello wrote on a piece of paper in the police station here today.

Costello was charged with slaying Eva Henderson Costello, 28, his wife. The alleged slayer walked to the station, making strange motions. Inside he asked for a sheet of paper and wrote the strange message which police interpreted as his confession of guilt.

## PASSENGERS ON PRINCESS ANNE ARE TAKEN OFF

POLICE AND COAST GUARD BOATS EFFECT REMOVAL OF PASSENGERS FROM STRANDED VESSEL

### 104 PERSONS ON VESSEL

Crew and Officers Remain on Boat and It Is Not Known When They Will Be Removed—Ship May Break in Two Parts

By United Press Leased Wire

New York—Passengers of the stranded Old Dominion liner Princess Anne were being transferred to land in small boats of the cutter Manhat-tan this afternoon.

The transfer was being made by two boats, a police launch and a coast guard power boat. The police craft was the first to reach the stranded liner and was greeted with cheers by the benumbed passengers and crew who had been without heat or warm food since the boiler room was flooded yesterday.

There were 104 persons on the liner when she struck a reef off Rockaway Point yesterday morning. Tentative efforts were made to launch life boats from the shore yesterday but no headway could be made against the giant seas. Attempts were renewed again today and the police boat, breasting the huge waves, finally succeeded in drawing alongside the liner, to which a line was made fast.

Six women and three men were first transferred to the police boat by rope slings. They were suffering from cold and exposure and were given immediate medical attention by a police surgeon.

In addition to the two launches three sea going tugs and a light house tender were standing by. It was believed all those on the princess Anne would be safely transferred within a few hours. The action of the water was said to be eating away the sand beneath the steamer and ships and fear was expressed that she might break in two.

Each wave threatened to crush the small boats against the side of the steamer. The crews divided their efforts between getting the passengers into their boats and keeping their own small craft afloat.

The decks of the Princess Anne were coated with ice, adding to the difficulty of the steamer's crew in rendering assistance to the two launches.

Just as the first passengers were lowered into the small boats the sun broke out from behind the heavy clouds. Several old fishermen among the crowds on shore hailed this as a good omen.

Transfer of the 32 passengers to the police tug Relief was completed shortly after 1 o'clock. All the available landing places in Jamaica Bay had been damaged by the recent high tides and the Relief headed for New York Bay, presumably to dock at the Battery. It was believed that Captain Seay of the Princess Anne, whose leg was broken was among those transferred to the Relief.

The officers and crew remained on the steamer. It was not known at this time when they would be removed.

Another Ship Sinking  
Ottawa, Ont.—The steamship Polar Bear went aground off Machiasport last night and is in a sinking condition, according to word received here today.

According to the message the crew of the stranded steamer has been taken off by the U. S. destroyer Cushing, which is standing by. No further word has been received from the vessel up to noon today.

## ELLSWORTH PUTS BAN ON ALL DANCES UNTIL AFTER LENT

HEALTH OFFICER TAKES PRECAUTIONS TO PREVENT SPREAD OF FLU EPIDEMIC

After tonight no more dances, either of a public or private nature, will be permitted in Appleton until further notice. Dr. H. E. Ellsworth, city health officer, announced this afternoon. The health department's means to relieve the shortage in the United States after Lent, as Dr. Ellsworth intimated that the ban would not be lifted before Lent.

In announcing the ban on dancing, Dr. Ellsworth stated the measure is intended to eliminate every possible danger, and was not because an epidemic is feared.

Only five influenza cases were reported to the health officer, one of which was pneumonia. No deaths were reported.

ARGENTINE SUGAR TO RELIEVE U. S. SHORTAGE

By United Press Leased Wire  
Milwaukee—F. Ulrich, of Tucuman, Argentina, today said here that Argentina would produce close to 500,000 tons of sugar, which would partially relieve the shortage in the United States. Ulrich said that four years ago he killed all the sugar cane in Argentina, new seed was imported from Java and the main effort has been to raise cane from the seed. This is the first season that cane has been grown on a commercial scale.

## Daniels Scores Sims For Taking Foreign Medals

Acceptance of Decorations from Foreign Powers Is Contrary to American Traditions, Secretary of Navy Avers

(By Raymond Clapper)  
By United Press Leased Wire

Washington.—Admiral William Sims accepted a decoration from the British government and permitted subordinate officers to receive them before he was authorized by Secretary Daniels, according to correspondence laid before the senate naval affairs investigation committee today.

Daniels, resuming his testimony, scored the views of Admiral Sims, who favored receiving foreign decorations.

"This would be contrary to American ideals, laws and traditions," and would lead officers to seek the favor of foreign governments, Daniels asserted.

Daniels said he "emphatically" dissented from Sims on this question.

He recommended Rear Admiral Rodman who was offered a decoration by the British government but refused to accept in the usual manner of kneeling before the king and was finally permitted a simple presentation.

Daniels disclosed that there was a controversy between Daniels and Sims during the war over the foreign medal question but that in deference to the feelings of the Allies, it was kept secret.

Daniels defended his action in awarding a D. S. M. to Thomas Edison for work on anti-submarine devices.

Daniels quoted from a letter Sims sent to the navy department Dec. 30, 1917, urging that navy officers be allowed to receive decorations Great Britain wished to confer.

Sims said this would improve the morale of the service. Daniels observed this might be true of those "more eager for British honors than American appreciation."

Referring to the shore duty of Sims, which Daniels emphasized at a previous hearing, Senator Poin-dexter asked:

"Didn't Admiral Sims always serve where he was ordered?"

"Certainly," every officer does," Daniels replied. "But I was referring to the undue estimate he places on it."

Daniels said he would not have recommended Sims as a permanent admiral.

"I would not withdraw a word I have said in praise of Admiral Sims' service, but I would not have urged congress to make him an admiral for life had I known what has since developed."

## CRITICIZE ITALIAN PREMIER FOR APPEAL FOR U. S. SUPPORT

SUDDEN CHANGE OF HEART BY ALLIES ALARMS ITALIAN DEPUTIES—PLOT IS FEARED

(By Camillo Cianfarra)  
By United Press Leased Wire

Rome—Deputy Cesaro created a sensation in the chamber of deputies today when he read a letter purporting to be from Premier Nitti to Secretary Lansing, in which Nitti urged American support for Italian aspirations in the Adriatic. Cesaro criticized the premier severely, charging him with submissiveness to the United States.

Nitti, according to the letter, told Lansing the Fiume situation was creating general unrest throughout Italy. He depicted the internal situation, resulting from the rejection of Italy's demands as "grave" declaring it eventually would be detrimental even to Great Britain and France.

After Cesaro's attack Nitti admitted he had written to Lansing and asked Cesaro how the letter came to his possession. Many deputies questioned the genuineness of the document.

Cesaro's speech followed earlier attacks upon the premier who was defended by Deputy Revione. If it comes to a choice between Dalmatia and Fiume, Italy must choose Fiume, Revione asserted. Socialists constantly interrupted the speakers.

Deputy Cicotti said the sudden change of the Allied attitude giving consent to enforcement of the part of London was alarming. The Allies he said, now probably are attempting to plunge Italy into a dangerous situation to compel her to enter the proposed Franco-British Italian alliance. Cicotti asked Premier Nitti whether Allied consent depended upon his promise to enter the proposed alliance.

Villistas Loot Homes  
El Paso, Tex.—Villistas forces looted homes in the towns of Gomez Palacio and Lerdo in Durango state last Wednesday, according to reports received here today. Later they visited the San Fernando plantation of the Tlahualilo Cotton Company and seized Tlahualilo Joseph E. Askev, an American citizen and are holding him for \$20,000 ransom, the reports stated.

The rebels were said to have released all prisoners in jails at Gomez Palacio and Lerdo.

These reports were the first indication that Villistas were operating in Mexico's richest cotton district, near Torreón.

ONLY \$150 A MONTH IS LEFT TO AUTO MAKER'S SON

By United Press Leased Wire  
Detroit—The will of the late John F. Dodge, automobile manufacturer, filed for probate today out of John Duval Dodge, a son with only a monthly allowance of \$150. The son was said to have displeased his father.

Construction of the palatial home Dodge started in Grosse Pointe was ordered continued by the trustees, subject to the will of Mrs. Dodge. No mention of the value of the estate was made.

## ELECTRIC CURRENT SHUFFS OUT LIFE OF CY ANDERSON

CYRUS ANDERSON, FOREMAN FOR TRACTION COMPANY, KILLED IN GREENVILLE THIS MORNING

### WAS MOTORCYCLE OFFICER

Left Police Department to Enter Electrical Construction Work—Veteran of the World War—Mother-in-Law Dies Yesterday

Cyrus P. Anderson, line foreman for the Wisconsin Traction, Light, Heat and Power company, former motorcycle police officer, was killed by electrocution while working on a pole at Leppla's corners, town of Greenville, eight miles west of Appleton, about ten o'clock this morning. Death was almost instantaneous, 13,000 volts passing through his body. The accident happened in view of four men of his crew who were working with him.

Men who worked with him are unable to tell exactly how the accident happened. It is presumed, however, that the current entered his body through his hands, inasmuch as they were badly burned. The body was suspended from the wires a few minutes but dropped to the ground before other workmen could reach it. It was taken to the home of Harry Leppla, near by, and medical assistance was summoned. Several other poles near the one on which Mr. Anderson was working, were occupied.

Mr. Anderson entered the employ of the traction company a little more than six months ago, resigning from the police department. He was thirty years old and married. He lived with his family at 874 North Division street.

The document was engaged in electrical construction work for several years, resigning to become a motorcycle officer in Neenah. Later he took a similar position in Appleton, leaving to serve in the great war. He was a non-commissioned officer and served overseas. After returning from the service he resumed his position with the police.

Mr. Anderson is survived by his wife and one daughter, Florette, about a year old; parents, Mr. and Mrs. John Anderson, Gillingham's corners; two sisters, Mrs. Robert Heckert and Mrs. Thomas Waite, both of Appleton; one brother, Roy Anderson, at home.

## GAME ASSOCIATION MAY BE FORMED BY MEN OF KAUKAUNA

AGITATION FOR SEPARATE CLUB  
IS STARTED—HOLLAND-  
TOWN MEN DIS-  
—OTHER NEWS

Kaukauna.—Henry Hass, 27 years old, of Hollandtown, died Sunday morning at his home after a short illness. He is survived by his wife. Funeral services were held Wednesday morning at ten o'clock from the St. Francis church at Hollandtown. Burial was at St. Francis cemetery.

Infant Dies.—Herbert Paul, Kapinest, 10 months old son of Mr. and Mrs. Edw. Kapinest, of this city, died Sunday at his home. The child was ill but a short time. Surviving are the parents. Funeral services were held at two o'clock Wednesday afternoon from the late home. Interment followed at Union cemetery.

Separate Organization.—A separate organization of the Outagamie County Fish and Game Protective Association may be formed here in the near future.

At the annual meeting of the association at Appleton, Thursday night, the matter was brought up by Mark Catlin, state president, who declared that Kaukauna should have a separate club outside of the county association. No action was taken on the matter.

Ten Kaukauna men attended the meeting, including Gustave Hilgenberg, Otto Look, Joseph Jansen, P. L. Chamberlin, Robert Rogers, and William Harwood.

Leap Year Party.—Members of the Girls Club were hostesses at a leap year party Thursday evening. Following a theatre party the young people enjoyed dancing and refreshments.

100 Couples at Dance.—More than 100 couples attended the dance given by the Kaukauna Amusement club at Eagle hall Friday evening. The party was one of the most successful yet given by the club. Mills orchestra furnished music.

Dance at Little Chute.—Several Kaukauna people attended the dance at Lamer's hall, Little Chute, Thursday evening. Music was furnished by Mills orchestra of this city.

Play Hilbert Again.—Hilbert high basketball team played the Kaukauna high at the auditorium Friday night. A previous contest resulted in a 76 to 4 victory for the visitors.

Lose to Appleton Bowlers.—Ganter-Bedat bowling team of the Hilgenberg alleys was defeated by an Appleton five representing the Arcade alleys at this city Wednesday night. The visitors rolled in excess of 2600. Friday night the Ganter-Bedats bowled the Pierce Bros. team of Menasha.

To Play Green Bay.—Fox club team is practicing daily for the tilt with the Green Bay Turners at the auditorium Tuesday night. The visitors are exceptionally strong, and it will take some fast work for the locals to edge over a win.

## NEW PLAN FOR SPEEDING UP FREIGHT SHIPMENTS

All Shipments in Any One Freight Car  
Are to be For Designated City  
Where it will be Sidetracked

W. B. Basing, station agent of the Northwestern Railway company, attended a meeting of station agents of the Northern Wisconsin division at Fond du Lac Thursday which was called for the purpose of devising a plan by which cars can be temporarily set out without delaying freight destined for other cities.

The plan determined upon is to load the car with freight exclusively for the city at which the car is to be set out. As it has been all freight destined for cities beyond that point has been delayed for a considerable length of time. The greatest difficulty will be in filling the car under the new arrangement.

The plan is already in operation and the rapid transportation of freight promises to be a great time saver in the matter of a new freight depot in Appleton was not taken up at the meeting and no new developments have been announced.

## BOY SCOUT MOVEMENT IS GROWING IN APPLETON

The Boy Scout movement in Appleton has experienced a wonderful growth in the last few months. Five troops, composed of about 125 boys, are now organized in the city. Appleton had only 29 boys in October, 1919, when Leigh Hooley, Lawrence college student, was appointed scoutmaster. Under his direction, interest in the Boy Scouts has increased tremendously.

Meetings of each troop are held weekly at First Ward school, Forester hall, and the Methodist church. Troop 3, the last to be formed, was organized about a month ago at First Ward school, with E. J. Barker of the faculty as scout-master.

## WOMAN KILLED BY FALL DOWN STAIRS

Manitowish.—Mrs. John Scherer, 69 years old, was killed by falling down stairs at her home on South Eleventh street. The woman lived upstairs and was carrying a pan of ashes down to the yard. The stairs are located outside on the back of the house. It is thought dizziness overcame the woman, causing her to fall. A few minutes before the accident she had visited the family which resided on the first floor. Mrs. Scherer was twice married. Her first husband, Balzar Klein, died many years ago, and her second husband, the late John Scherer, died last year. She is survived by nine children.

## RUSH FREIGHT CARS TO GRAIN CITIES TO RELIEVE CONGESTION

RAILROAD OFFICIALS INSTRUCT-  
ED TO SEND CARS TO OVER-  
FLOWING GRAIN EL-  
EVATORS.

Orders have been received from Director General Walker D. Hines of the railroad administration to rush cars to the grain terminals in order that the shipment of grain may be facilitated and relief given to the rural elevators now filled to overflowing with grain.

Appleton railroad officials have received the order and an appeal has been made to shippers and the public in general to give all possible relief to the situation.

The information received shows that in many cases the farmers' elevators are fairly glutted with rye,

HEAR  
S. C. RUEGG  
at Y. M. C. A.  
SUNDAY—2:45

barley, corn and other grains and cereals. Due in many cases to improper storage facilities in the elevators which were never meant for anything but temporary purposes, the grain is swelling and sprouting, and it is necessary to get it out at once. This cannot be done, however, according to claims, until the terminal cars at Chicago, Milwaukee, Minneapolis and other wheat storage points are emptied. Elevators in these cities are filled to overflowing with grain, where it will be exported and redistributed over the eastern states.

To move this grain, the railroad officials state that they must have additional car facilities and open routes. The following appeal has been sent out by Regional Director Aishon by order of Director General Hines.

"Embargoes now in effect on east-bound business, including those placed yesterday and today by the Eastern Region, should reduce loading in that direction materially. It is imperative that particular attention be given to loading, especially corn from country stations and grain from terminal markets where movement is not restricted by the embargoes. Particular attention should be given to localities where, for lack of storage or bad conditions of corn, the emergency is more acute. Positive instructions should be issued that will insure proper use of cars suitable for grain, which means preventing the loading away from grain territory. A great deal more can be accomplished in the proper selection of box cars for loading."

## UNIONS WANT UNIFORM SCALE FOR FOX VALLEY

Negotiations are Under Way to Secure Consent to Plan for Paying Similar Wage to Building Trades

Oshkosh, Wis.—The scale of wages for the building trades in the Fox River valley from Fond du Lac to Green Bay will be uniform after June 1 if efforts of union leaders to secure agreements of the district councils to that effect are successful. Negotiations are well under way.

Under the proposed arrangement wages per hour with approximate present scales will be about as follows: Painters, 65 cents; eight hours (present scale 55 cents); carpenters, 85 cents; eight hours (present scale 65 cents); plumbers, \$1.18 eight hours (present scale 75 cents); bricklayers, \$1.18 eight hours (present scale 85 cents).

Among the allied trades not so well organized, or not organized, wages in this section of the state are as follows: Plasterers, 85 cents; eight hours; stone cutters, 85 cents; eight hours; sheet metal workers, 60 cents; nine hours; roofers, 60 cents; nine hours; inside wiremen, 60 cents; nine hours. Wage scales in other lines, mostly organized, are: Coal and ice workers, 40-42 cents; ten hours; machinists, 45-60 cents; eight-nine hours; molders, 65-68 cents; eight-nine hours; cement finishers, 60-65 cents; eight-nine hours; construction labor, 40-45 cents; nine hours; common labor, 30-40 cents; ten hours.

## FORMER GOVERNOR MCGOVERN GETS A FEDERAL POSITION

Francis E. McGovern, Once Principal of Appleton High School, Now Council for Emergency Fleet Corporation.

Washington, D. C.—Appointment of Francis E. McGovern of Milwaukee as general counsel of the emergency fleet corporation, was announced on Friday. He succeeds C. J. Patterson of Pittsburgh, resigned.

In addition to taking over the duties of general counsel, McGovern also takes charge of the settlement of construction claims. He has already assumed office.

McGovern, formerly governor of Wisconsin, was commissioned as a lieutenant colonel in the judge advocate general's department during the war.

Former Gov. Henry C. Stuart of Virginia was nominated on Friday by President Wilson as a member of the interstate commerce commission to succeed James S. Harlan of Indiana, whose term has expired.

Louis Titus, an attorney of San Francisco, was nominated to be a member of the shipping board. Mr. Titus succeeds Henry M. Robinson, who resigned last year. He is a Republican.

This is former Gov. Stuart's second appointment to a federal office since his term as governor of Virginia expired two years ago.

In ancient Rome no woman over 30 years old was permitted marry.

## MOTHER AND BABY ARE CENTRAL FIGURES IN INTER-NATION ROMANCE

This is Emily Knowles and her baby. The youngster is a son of Perley R. Spiker, whose wife wants to adopt the little fellow. Guy Spiker, brother of the baby's father, has asked Emily to marry him. It was through the efforts of Mrs. Spiker that the girl and her "war baby" were allowed to come to America. Perley Spiker and Emily Knowles were principals in a war-time romance in Europe.

## WAGON SPOKE PLANT TO MAKE AUTOSPOKES

PASSING OF THE WAGON IS ILLUSTRATED BY CHANGE OF POLICY AT TRACY FACTORY

The former Marston & Beveridge hub and spoke factory, which of late years has been owned and operated by John Tracy, and which has been turning out its product continuously for fifty-six years with the exception of a few weeks last winter when the original factory building was destroyed by fire, has been making its final run of wagon spoke this week.

Next Monday morning it will commence the manufacture of spokes for automobiles and motor trucks to which it will hereafter devote its entire attention. Its first order consists of eight carloads which will require some time to fill. The change has been made on account of the scarcity of oak in this part of the country.

The new spokes will be manufactured out of maple and birch and will make it possible for the plant to continue in operation indefinitely. A carload of birch from the northern part of the state was unloaded yesterday and a supply of maple is on the way. No new or additional machinery is needed in making the change.

Besides cleaning up its wagon stock this week the plant has been busy cutting into stove wood length a quantity of logs that were shipped here from Kaukauna that was unfit for hubs and spokes. Of late years there have been only four hub and spoke factories in operation in the state.

## RUEGG WILL SPEAK AT MEN'S MEETING AT "Y"

The Rev. S. G. Ruegg, Menasha, will be the speaker at the men's meeting at the Y. M. C. A. Sunday afternoon. The speaker will talk on "The Life and Work of a Wisconsin Pioneer."

In addition to the Rev. Mr. Ruegg's address, a special musical program will be rendered. Numbers will be given by a trio and a solo will be sung by John Vincent.

The men's bible study class will meet under the direction of Prof. Weston after the meeting. A luncheon will be served at the close.

## PARENTS WOULD FLEE POLAND SON LEARNS

Manitowish.—Joseph Krasinsky has received a letter from his parents in Poland, asking to help them get out of that country and come to the United States. It is the first news he has had from them in five years. Krasinsky's father writes that when Krasinsky gained control of Russia the government purchased the farm and other holdings of his and paid him \$20,000 in American money. However when the bolsheviks got the upper hand the American money, of which Krasinsky had plenty, was declared valueless. The letter states that conditions in Poland could not be much worse than they are. Government officials confiscate property, drive away with the horses and cattle, then levy heavy taxes which must be paid in vain. Mr. Krasinsky will ask the government to aid him in getting his parents to this country.

D. H. Gurnee, 955 Colgate avenue, had a portion of one of his fingers taken off yesterday by a circular saw. He was taken to St. Elizabeth hospital where he was given surgical attention.

## BADGER LOCAL CUTS LOOSE FROM STATE SOCIETY OF EQUITY

RESOLUTION TO INCORPORATE  
AND QUIT PAYING DUES  
TO STATE SOCIETY  
IS ADOPTED

Badger local of the American Society of Equity decided to cut loose from the Wisconsin Society at its meeting in the Triangle school last evening when a resolution to refrain from paying dues to the parent organization until it is incorporated, was adopted by unanimous vote. The Badger local also decided to incorporate at once under laws of Wisconsin with a capital stock to be determined by a committee.

Decision to cease paying dues was reached after an address by C. B. Ballard in which he said that the state office is in a desperate condition.

A similar resolution was presented at the meeting of the Common Sense local last evening but no action was taken. Tonight Mr. Ballard will speak before the Apple Creek local, of which he is president, and an effort will be made to secure adoption of a similar resolution.

Following is the resolution adopted last night:

Whereas, past experience has taught us that this local has not received any benefit or help from the Wisconsin co-operative law, with such capital stock as a committee elected at this meeting shall determine. This committee to consist of three members.

Be it resolved, that Badger Local of the American Society of Equity of Outagamie County, Wisconsin, pay no more dues to the state Union until same has been incorporated and placed in charge of competent business men.

Be it resolved further, that we as a local incorporate under the Wisconsin co-operative law, with such capital stock as a committee elected at this meeting shall determine. This committee to consist of three members.

Be it further resolved, that we recommend that each local in the county take the same action we have taken, and in doing so elect one member from each local to meet at a later date to incorporate the county as a unit, to center all the purchasing power of the county in one purchasing unit. That such action be taken by other organizations throughout the county as soon as possible and as soon as at least five local have taken this action that a meeting be called for the purpose of incorporating the county under the Wisconsin co-operative law.

Resolved further, that this meeting elect such person to represent this local at such organization meeting. This being the first local to take such action that the man selected by this local shall be the temporary chairman to call the first meeting of the locals.

Stevens Point, Wis.—John S. McGinley, 52, one of Portage county's best known farmers, dropped dead at his home in Buena Vista. His body was found in the cellar where he had gone to replenish the wood in a heating stove. He is survived by his widow and eighteen months old baby.

## RESPONSIBILITY IS FIXED IN MANAGER GOVERNMENT FORM

DR. KINSMAN DISCUSSES THREE  
KINDS OF GOVERNMENT  
BEFORE COLUMBUS  
SCHOOL FORUM

Lively discussion followed the talk given by Dr. D. O. Kinsman on managerial government at the meeting last night of the Columbus Forum at Columbus school. About 160 people were present, but it was decided to hold a similar meeting next Friday, at which the subject could be further discussed to a larger audience. A committee was appointed to make arrangements for the next meeting and it is possible that the people of the other districts will be invited to attend.

The talk was preceded by a short business meeting. Announcement was made of the intention of Miss Marguerite Comerford to resign her position at the Columbus school be-

cause of an offer of another position at a higher salary. A resolution was adopted to petition the school board to increase Miss Comerford's salary to an extent that would retain her. "In speaking upon this subject, we must eliminate the personal question altogether. It is not a matter of whom we like or whom we dislike. It is entirely a question of which form of government is best, which form will give us the greatest efficiency," Dr. Kinsman said last night.

Dr. Kinsman made no attempt to hold one form of city government up as better than the other. He merely presented the facts in the case of the two forms of government. Appleton has already experienced, the commission form and the aldermanic, and outlined the managerial form.

Lack of expert service and of fixed responsibility are the two things upon which dissatisfaction with city government hinges. Dr. Kinsman in his exposition of each form showed how they either lacked or possessed these two essentials.

Appleton's experience with the two forms has already acquainted it with what they are and what they are deficient in. In regard to the managerial form, Dr. Kinsman went into greater detail because of the general unfamiliarity with this.

As to the method, he showed that the plan provides for the election of a certain number of councilmen by the people of the city, regardless of district. These men are elected for a two year term and are subject to recall. Upon them falls the duty of making the laws of the city, not the administrative laws, and of electing the manager. The manager is appointed on the basis of ability and training and is secured in much the same manner that a school board appoints a superintendent of schools. He may come from outside the city and in fact generally does.

The manager is entirely responsible. If he does not give expert service he loses his position in the same manner an inefficient superintendent would. Thus it was pointed out that the system provided for fixed responsibility and expert service.

The managerial form was also likened to a corporation. The people of the city hold the same position as the stockholders of a corporation. The councilmen they elect are the same as directors of a corporation. And the manager they appointed is nothing more than the manager, secured because of his efficiency and training, of any large, growing corporation.

Arrangements for the banquets are being rapidly completed by the committees in charge at each church.

The councilmen they elect are the same as directors of a corporation. And the manager they appointed is nothing more than the manager, secured because of his efficiency and training, of any large, growing corporation.

## 340 CARLOADS OF CABBAGE SHIPPED OUT OF APPLETON

SAUERKRAUT INGREDIENT SOLD  
FOR \$75 A TON YESTERDAY  
—SPECULATORS WAX  
RICH

The last carload of cabbage for the season of 1919-1920 was shipped to Chicago yesterday, making a total of 340 shipped out of Appleton. As there are important shipping centers at Greenville, Seymour and other neighboring points the total amount of the crop last year is estimated at over 500 carloads. The average carload is 14 tons.

The price was never known to be as high as it has been for the last month. For several days it was up to \$95 to \$100 a ton and then commenced to decline. Yesterday the price was \$75 a ton. Several carloads that were purchased early in the fall at about \$20 per ton and were placed in

cold storage here were sold at the advanced prices.

A large portion of the crop was shipped during the extremely cold weather making it necessary to heat each car with a stove to prevent the cabbage from freezing. The stovepipe was usually run out through a hole in the side door. The first carload of last year's crop was shipped on August 19, which was nearly three weeks earlier than the previous year.

## FORESTERS TO DEBATE FORMS OF GOVERNMENT

Tuesday evening the Catholic Order of Foresters will stage the debate which was recently postponed, on the question, "What form of government will be the most feasible for the city of Appleton?" Both sides are preparing for a comprehensive analysis of both the aldermanic and managerial forms of government.

## FATHER AND SON BANQUET SET FOR FEBRUARY 16

The date for the Father and Son banquets to be held in the various churches of the city has been set for February 16, it was announced this morning.

Arrangements for the banquets are being rapidly completed by the committees in charge at each church.

As to the method, he showed that the plan provides for the election of a certain number of councilmen by the people of the city, regardless of district. These men are elected for a two year term and are subject to recall. Upon them falls the duty of making the laws of the city, not the administrative laws, and of electing the manager. The manager is appointed on the basis of ability and training and is secured in much the same manner that a school board appoints a superintendent of schools. He may come from outside the city and in fact generally does.

The manager is entirely responsible. If he does not give expert service he loses his position in the same manner an inefficient superintendent would. Thus it was pointed out that the system provided for fixed responsibility and expert service.

The managerial form was also likened to a corporation. The people of the city hold the same position as the stockholders of a corporation. The councilmen they elect are the same as directors of a corporation. And the manager they appointed is nothing more than the manager, secured because of his efficiency and training, of any large, growing corporation.

## HAS NEW SCHEME TO PICK FOOTBALL CHAMP OF COUNTRY

TOURNAMENT DURING THE HOLIDAY SEASON SUGGESTED AS MEANS OF ENDING SQUABBLE

A football enthusiast on the coast is working on a plan which would determine the football champion of 1920. It is a plan which is very likely to meet favor with at least three-fourths of the colleges and with the entire sport world besides.

This man, who requests his name be not used at the present time, would bring the champion teams of east, middle west and the south to the coast next winter and together with the Pacific Coast champion stage a tournament. Two games would be played Christmas day among the four teams and the two winners would meet for the championship New Year's day.

This plan may not be favored by the Western Conference, for there is a rule against post-season games among the schools of the mid-west, which belong to this association. But the south and east would very likely agree to such a proposition. And perhaps a strong mid-western team, such as Notre Dame proved to be this year, would volunteer to represent the middle west. Centre College might have a claim to the mid-western title at the end of next season, or Centre will play strong teams of the south, east and west and its geographical location is as near being mid-west as south.

One of the leading coaches of the country has favored the proposition. That man is Xen Scott, who taught the Alabama warriors enough football to trample over the best the south could produce. He has a strong team returning next fall and he is very much interested. Harvard no doubt, would favor the plan in event the Johnnies won the eastern title. Harvard has a harder schedule next year and if undefeated probably could lay claim to being the best team in the east.

And sentiment might be changed in the Western Conference to permit amending the rule prohibiting post-season games.

The sport fans certainly would like to see the title bestowed on some team. None has ever had a clean claim to being the best in business.

## MUST OUST DEMPSEY FROM POST OF LEGION

MILWAUKEE WAR VETERANS INSTRUCTED TO FIGHT HEAVYWEIGHT CHAMPION FROM ROLLS

By United Press Leased Wire  
Milwaukee—Jack Dempsey's honorary membership in Gordon Barber Post, American Legion, was nullified today and post officials stated the action was taken because such a membership is unconstitutional. The post adopted a resolution praising Dempsey and his war record.

Milwaukee—State officials in the American Legion stepped into the Milwaukee angle on the Dempsey "slacker" charges on Wednesday, when R. M. Gibson, state adjutant notified the Gordon Barber post to withdraw the honorary membership conferred on Dempsey recently.

J. T. Lynch, commander of the post, immediately replied that the matter would be taken up by the post at its next meeting, and if the honor conferred on the heavyweight champ is not according to the American Legion's constitution, it would be immediately withdrawn.

Orders  
Gordon Barber Post, Milwaukee: It is reported the Gordon Barber post, No. 196, conferred honorary membership on Jack Dempsey. If this is true you will wire and write me particulars and recall by your post action the membership conferred on Dempsey is contrary to the constitution of the American Legion.

R. M. Gibson, State Adjutant, American Legion, Grand Rapids, Wis.: Gordon Barber post, No. 196, has conferred honorary membership on Jack Dempsey and also exonerated him of the slacker charges. If granting Dempsey a membership in Gordon Barber post is unconstitutional, the post at its next meeting will revoke the resolution that granted him membership.

J. T. Lynch, Commander, Gordon Barber Post: "We still hold that Jack Dempsey has been greatly wronged by the action of various American Legion posts in condemning him as a slacker," said Commander Lynch, "and at our meeting Friday night, evidence will be made public, showing that the charges are absolutely false."

The Rodriguez family from Porto Rico sent \$94 men into the American forces during the war.

## THREE BIG NATIONS GET TEN VOTES ON BOXING COMMITTEE

FRANCE, ENGLAND AND AMERICA HAVE EQUAL NUMBER OF VOTES ON NEWLY ORGANIZED BOARD

By United Press Leased Wire  
Paris—America, England and France were apportioned ten votes each here yesterday at the organization and the establishment of the international boxing union.

Conceding to the objection of Americans that countries in which boxing is only a minor sport should not be allowed equal representation, the union awarded four votes to Belgium; three to Australia, two each to Switzerland and Italy and one to Holland, Denmark, Norway, Sweden, Argentine and Brazil.

Major Drexel Biddle, president of the American Boxing board called that the apportionment was satisfactory to the United States.

With the exception of the light heavyweight title, which was declared vacant, the holders of all the world's championships were agreed upon.

The selections were:  
Flyweight—Jimmy Wilde, England.  
Bantamweight—Peter Herman, America.  
Featherweight—Johnny Kilbane, America.  
Lightweight—Benny Leonard, America.  
Middleweight—Mike O'Dowd, America.  
Heavyweight—Jack Dempsey, America.

The featherweight, lightweight and middleweight titles of Europe were declared vacant. The champions selected were:

Plyweight—Jimmy Wilde, England.  
Bantamweight—Charles Ledoux, France.  
Welterweight—Badoud, France.  
Light heavyweight and heavyweight—Georges Carpentier, France.

## WANT APPLETON WOMEN IN BOWLING TOURNAMENT

Organization of a State Pin Tourney to be Started at Milwaukee Next Week—Want Local Delegate

Are the women of Appleton interested in a state bowling tournament? That is the nature of a query received in Appleton and for which no answer has yet been found.

In Milwaukee, the fair sex show keen interest in this sport and a city league is in successful operation. With the state tournament in progress at Manitowoc for men, the idea has occurred to a group of Milwaukee fans that one for the women might prove interesting as well.

In order to get the women of the state together and come to some decision, a meeting will be held at three o'clock Thursday afternoon, February 12, at the Hotel Wisconsin, Milwaukee. Appleton is asked to send a delegate, or to have someone who will sponsor the idea send a letter to the state chairman giving an expression as to the feasibility of the idea. Mrs. H. Sauer, 213 Twenty-second street, Milwaukee, is acting as state chairman and is assisted in her work of organization by five other Milwaukee women.

Imperials Win  
Imperials won two out of three games from the Typos in the match bowling game at the Y. M. C. A. alleys Friday night. Total scores were 2327 and 2168.

## U. S. TENNIS STARS TO SEEK WORLD TITLE

TENNIS TEAM WILL BE SENT TO AUSTRALIA DURING THE WINTER—CHANGE THE RULES

By Henry L. Farrell  
By United Press Leased Wire  
New York—Tennis joined the list of sports in which America will seek world's supremacy in 1920 when the United States tennis association voted to challenge immediately the Australian holders of the Davis cup.

At its annual meeting last night, the association reconsidered a previous inclination to wait another year before invading the Antipodes and decided to send America's best racquet stars after the cup this winter.

Stormy discussion arose over the proposed change in the rules that

Y. M. C. A. Wrestling Championships TONIGHT 8 P. M. 7 Bouts Admission 25c

would remove "love" from the scoring system and establish new foot fault and handicapping regulations. The recommendations were tabled and an amended clause prohibiting jumping or running at the service was substituted. The new scoring rules are to be tried one year, however, in handicap matches.

The national singles championship tournament was awarded to the west side tennis club, Forest Hills, L. I., where the championship was held last year. The national doubles went to the Longwood cricket club, Boston, the national women's championship to the Philadelphia cricket club and the national clay court championship to the western association.

Along with the Davis matches, another international championship was made possible when the association accepted the cup offered by Mrs. Geo. W. Wightman, Boston, for an international series for the women. The first contest for the cup may be held in America this summer.

## GETSCHOW TEAM WINS 3 VOLLEYBALL GAMES

Getchow's team won three straight games from the Gochmeyer aggregation in the match volleyball contest at the Y. M. C. A. Friday. The Wells and Bushey team of the Animal League play this afternoon. Standings in the Bird volleyball league announced today follow:

	W.	L.	P.
Redbirds	6	5	.545
Crows	6	5	.545
Blue Jays	6	6	.500
Night Hawks	5	7	.416

Hottentot women paint the entire body in patches of red and black.

## 25 WRESTLING BOUTS AT Y. M. C. A. TONIGHT

EXCITING CONTESTS ARE EXPECTED WHEN LAWRENCE AND "Y" MEN SETTLE CHAMPIONSHIPS

The wrestling tonight for the Y. M. C. A. championships at the city Y. M. C. A. will be of first grade quality as the men have been working hard during the past two weeks in order to get into condition necessary for the winning of the medals offered as prizes tonight.

Captain Courtney, of the Y. M. C. A. team is the only man on that team who defeated his opponent in the last Y. M. C. A. Lawrence College dual wrestling meet and now that Atkinson is weighing 125 pounds and is wrestling in that class, this bout to regain the prestige of the college wrestlers should prove to be one of the most interesting of the evening.

The 135 pound class will also prove to be very interesting as there are three men entered from the college and the winner of this match will probably be the man who takes the trip to Madison to wrestle against the University of Wisconsin when Lawrence meets that school for the state championship February 21. Indications all point to a large crowd tonight and the twenty-five bouts which will determine the winners are sure to produce some real fast wrestling.

## CARPENTIER WILL BRING HIS BRIDE TO AMERICA

Jack Dempsey's Next Opponent Will Be Married Early in March—Champ Is Idol of French Girls

Paris—Georges Carpentier, European heavyweight champion, and idol of the Paris midnights, will be married during the first week in March, and will take his bride with him when he sails for the United States on March 10. The name of the French fighter's bride-to-be has not yet been announced and the suspense is torture to the thousands of French girls who have worshipped the champion's picture since he knocked out Joe Beckett.

Carpentier will receive \$50,000 from an American movie concern for making a film in Los Angeles. At present exchange rates this will be more than 700,000 francs—fortune in France. He said on Thursday that he would invest 300,000 francs in the new French loan.

The champion's manager, Desamps, will have three other boxers in his stable when he sails for the states. Lenaers, the former champion of Belgium, Ledoux, the French bantam champion, and Papin, for whom he will seek scraps in America.

Hottentot women paint the entire body in patches of red and black.

S. Kroll, Berlin 1,671

Manitowoc—Friday's shooting in the team events in the 1920 state pin tourney here was featured by the Shoe Manufacturing league aggregation of Milwaukee. They came here eight squads strong and following their performance on the runways two changes were recorded in the standings.

The Weyenberg No. 2 team leaders of the day, broke into third position with a total of 2,705 and fourth place was occupied by the Weinbrenner No. 1 quintet which registered 2,668.

None of the other teams on Friday's schedule could accomplish anything better.  
W. Koch and G. Keel, a pair of Beaver Dam alley knights, shot their way into second place in the doubles standings in the race for the state bowling honors here. The duo from the little town to the west rolled 1,169. Koch's counts were 211, 214 and 168, while Keel's efforts brought 138, 191 and 197.

Friday's shooting in the two men competition also saw E. Papp and M. Simunek of Cudahy go into a tie for seventh place with A. Gennrich and P. Hartmann of Milwaukee with a total of 1,119. Two other tallies of over 1,000 were registered on Friday. H. Kietzner and G. Wilke scored 1,110 and W. Bergner and M. Kummer rolled 1,104. Both duos hail from Sheboygan.

There were no upsets or changes in the singles on Friday. W. Bergner led the list with a total of 598. He is a Sheboyganite.

## SEVENTH GRADE WINS FIRST WARD TOURNAMENT

Seventh grade basketball team captained by Klundt won the school championship by defeating the 8th graders at First Ward school Friday night by a 9 to 8 score in a hard fought game. The game was fast and clean, and the result was in doubt until the final whistle.

In Greenland the women color the face blue and yellow.

## MR. HAYS AND THE TREATY.

The attitude of Will H. Hays, chairman of the Republican National committee, in demanding that the peace treaty be kept out of the presidential campaign is commendable. Although he has issued no public statement, it is announced that he has communicated his position to the Republican leaders and has insisted that those who will have consideration of the platform shall leave untouched the subject of the treaty. We are to infer from Mr. Hays' position that he agrees with the view that neither the treaty proper nor the league of nations covenant has any place in a presidential campaign, and that they should be kept out of politics altogether. If this is so, the Republican chairman will voice, we think, the opinion of the public almost without exception.

Everyone knows that a presidential election conducted with the peace treaty and the league of nations as an issue would constitute a referendum on the question of their ratification or the form of the ratification. Regardless of how the election terminated we should have no clear idea as to what the people desired concerning the peace terms or the peace league. We would not be able to say what was the irreducible minimum, or what was the final maximum with regard to terms, reservations or amendments. We think it would be one of the most unfortunate incidents in the history of American diplomacy to drag this issue into the political fight. Aside from the reason that it would decide nothing conclusively, it would establish a precedent altogether foreign to the theories of our government and inconsistent with the sound determination of our international relations.

It is the function of the United States senate to pass upon the treaty and the peace league. It is also its constitutional duty to discharge this responsibility in a statesmanly and businesslike manner. That it has not done this up to date is obviously due to partisan strife arising out of a desire both by the Republicans and Democrats to obtain an advantage out of the form of ratification. It may be argued with Viscount Grey that the senate is actuated by lofty motives, and that politics has little or nothing to do with the controversy, but this is an altogether superficial analysis of the situation. There has been too much display of partisanship in the discussion of the treaty and too many challenges and counter-challenges to throw it into the presidential campaign to escape the conclusion that politics is the master influence which is operating to hold up the decision.

Mr. Hays proceeds in the belief that the senate will act upon the treaty within a reasonable time. He holds that this is the only right course, and that the treaty has no place in politics. There is no doubt but what the country agrees with him and that there would be universal regret if the senate failed to ratify the treaty with reservations, easily made acceptable to the people and, we feel inclined to predict, acceptable to the president.

## TRYING THE WAR CRIMINALS.

The allies have apparently succeeded in forcing the issue with the German government over the extradition of its nationals charged with war crimes, whom they propose to try by a neutral tribunal. Not only has Germany indicated its willingness to officially receive the list of persons desired for trial, but dispatches from Berlin indicate that it will, under pressure, turn them over for trial. So far as the United States is concerned, it has only a mild and passive interest in the dispute. Public opinion in this country is quite indifferent as to what is done with the alleged war criminals, but on the whole it is probable that it will disagree with the extremes to which it seems the allied powers are bent upon going to compel the trials.

While it is true that the cases of these alleged criminals are not analogous to that of the former kaiser, there is nevertheless a similarity in the motives behind all of the demands for extradition. What

ever the ex-emperor did was the act of Germany itself, and Germany has been brought to brook and punishment for the war and its consequences so far as reparation is physically possible. It may be conceded that those below the former supreme ruler of Germany did not represent Germany in their acts, and yet it is a fact that whatever they did the German government is responsible for. Our point is that this responsibility, whatever its character and extent, has been, broadly speaking, balanced by the defeat of autocracy and by the terms of peace.

German barbarity in the war has been morally atoned for by the terrific indictment which it received throughout the world and by the disastrous overthrow of the forces which utilized it as a means of warfare. It seems to us that the trial of individuals for these national offenses is of minor consideration. The allies would be better off not to proceed with it.

Still we recognize that the crimes are of far greater moment to France and Great Britain than they possibly could be to the United States, and that from their individual standpoint there is much to justify them in the policy they seem committed to.

## DEALING WITH THE UN-DEPORTED.

America consists of Americans and of nothing but Americans. Those, who within the past few years, have come to think of America as a vast mixture of languages, races and clashing doctrines, have had the wrong viewpoint. They have been thinking of America as a place and not as an ideal.

Millions of immigrants have crossed the ocean from the Old World. They have reached our shores, but many of them have never reached America. On the other hand, many of our native born are not now and never have been Americans. There is no such thing as an "American Red." There is no such thing as an "American I. W. W."

An American is a man who feels American, thinks American and acts American—no matter where he was born.

America has plenty of room and a warm welcome for those who wish to become Americans, but it cannot spare a single square foot of soil to those who intend to continue un-American and anti-American. Fortunately, we can deport some of the most noxious of these intruders, but these are but a small percentage of the unfit. What about the remainder?

There is but one answer: They must be Americanized.

This, however, is not a task for the Department of Justice, not even for Congress and the various state legislatures; it is a task for the rank and file of American citizens. It is a task of education plus, and of influence plus; it is really a task of moral coercion. It is a task for swift and energetic action, wherein American citizens in all their vast numbers must seize opportunities when they exist, and create opportunities when they do not exist, to Americanize all who come within their own circles or else to cast them out of their circles.

It is no time to talk of broad-minded sympathy, or of conciliation where a great question of right and wrong is involved. We cannot conciliate evil any more than we can conciliate a conflagration.

You needn't ask a man whether he likes his job. Observe the quality of his work and you will know.

## THE WASTED HANDS

I am a-hungered and I seek my seat,  
The table groans with weight of wine and meat;  
My hundred friends are gathered here to eat  
And crumbs and morsels fall about my feet.

But as I raise my fork, a vision stands,  
A pale wraith wafted from the wasted lands,  
And seeks to stay me with his piteous hands,  
Hands which implore, yet seem to give commands.

His eyes are sockets and his lips are blue,  
A damp bead on his parchment brow like dew,  
But I look all these signs and portents thru,  
And I deny him. Even so do you!

He is not of the goodly things which are;  
Why should he come to us our feast to mar?  
Why should he so intrude and from so far?  
Why should he hale us to his judgment bar?

Then, as we feast, the hands we might have filled  
Grow gelid and the pale, blue pulses stilled,  
But even as my pious heart is chilled,  
I raise my eyes and cry "God hath so willed!"

Oh! it is all a dream, and all a lie,  
God has not willed that the children die!  
We dare not twist our consciences awry,  
Nor let our fat souls sicken in their sty!

## Confessions of a Bride

(Copyright, 1920, by The Newspaper Enterprise Association.)

## The "Rat-Tat-Tat" of Machine Guns Penetrates The Walls of Our Prison

Not much noise from the outside world ever reached the sequestered prison where I watched while my husband slept. The room was almost in the center of the labyrinth of buildings which made up the hacienda. But the peculiar insistent "rat-tat-tat" of machine guns was far-reaching. It penetrated the thick walls and aroused in Bob some old memory of his days in France.

"Come on! boys!" he shouted as he sprang to his feet.  
Then he opened his eyes, saw me, and explained: "Machine guns, Jane! I guess the noise of them will jerk an ex-soldier out of his grave! I thought I was in the trenches, but it's only Morrison, thank God! I wonder how many bandits he's got in his 'revolutionary army' this time."

Suddenly the wail and swish of the machine guns was doubled. Bob whistled with excitement.

"That means that the Mexicans have got into action at last. I guess Morrison gave this hacienda some surprise party," he said. "Gosh, how I wish I could get out of this hole!"

"We've already done our bit for Morrison," I exclaimed joyfully. "I guess I did a good little job when I shot that store of munitions a few weeks ago even if I did do it in my delirium!"

"Best little job ever. You made it possible for Morrison to shoot up this nest. He had the plan in mind ever since he left the cave, he told me. But he couldn't find an excuse for making an attack until Spence and Archer were brought here. And then—he wouldn't have dared to tackle the proposition as long as the owner of the place had a fort behind him."

Bob interrupted himself at intervals, to listen to the rise and fall of the fight which was going on so near and yet so far away from us. I had never seen him so excited in my life. The battle was for big stakes and he was as helpless as a woman.

"Do you realize, my dear, that we are in the most interesting country in the world at the present moment? And in the very heart of its intrigue? And shut up—as useless as kittens?" he stormed.

"You're making our friend, the detective, a man of vast importance, my dear," I said.

"He is! It's his business to keep the peace between the United States and Mexico. Some job, I should say. He can't let rash Americans like Spence and Archer get themselves killed. And it takes nerve and money to masquerade his outfit as a band of half-breed outlaws. Say—Jane—where do you suppose he got his funds from?"

"How should I guess that?" I inquired sharply. It seemed so unimportant in the midst of our anxieties.

"Up a tree, my dear! He whispered the tale to me when he made that fruitless attack, three days ago. The bag of money you brought in the airplane and left suspended between the heavens and the earth—"

"Oh la! la!" I murmured. "What a chance! What a chance! Our very lives, today, depend on the murder of Morrison's hirelings—and my abandoned treasure—"

Suddenly the weird spat-spat-spat of firearms ceased.

Bob was alert; I grew more nervous than ever. The silence was more ominous than the noise of the fight. Finally Bob spoke abruptly:

"The war has ended!"

"Who won it?" I asked, trying to keep an anxious tremor out of my voice.

"I'll bet on Morrison. I'll bet he's in command of this hacienda at the present moment. If the conspirators who run this place have lost, you and I will know—for sure inside of the next five minutes."

## GERMAN WAR BLIND WORK

Berlin—German industrial captains are striving to make useful workers of the Teuton war-blind and war-maimed. They have succeeded to such an extent that today a considerable number are engaged in the hitherto supposedly impossible work of running machines which before the war only men with all their faculties operated.

The Siemens-Schuckert works here were the pioneers in trying to salvage manpower.

Today, these works believe that they have given an answer to any idea that war-blind or war-maimed, except in extraordinary cases, need be solely objects of charity and pity.

Working on their drills, presses, and boring machines are men totally blinded, and in some cases with an arm missing.

Utilization of such cripples has been made possible through application of special machinery. The Siemens-Schuckert works began their experiment in human salvaging back in 1915 before the stream of maimed and blinded had begun to pour back so extensively after the war.

At that time, people scoffed at the experiment. "Of course," they said, "you can't have a blind man operate a drill or a lathe. You may put him to work caning chairs or making brushes, but on this highly technical work it is quite an impossibility."

Siemens-Schuckert leaders paid no attention to this talk, but went ahead to develop machines upon which such men could operate with safety. Special attachments were contrived. In fact, it was no danger to the operator. In fact, it was found that with some kinds of drills, a blind man could operate a pair. And the blind man seemed oftentimes to take a greater interest in his work than a man with all his faculties. Perhaps, because he had pride in being independent rather than an object of charity for the rest of his days.

For instance, certain lathes were equipped with bells which told the blind operator when the material in the lathes had been ingeniously turned. On this machine and on drills and the like there were special guards which prevented the workman from catching his hands in the mechanism.

Then too, the works made allowances for a man's previous occupation.

As an example, it was found that men formerly engaged in locomotive work became ill when confined to operation of small machines upon which there was no heavy labor. These men were transferred to heavier machines which required more strength in manipulation and which required lifting larger loads.

In some cases, it was discovered that men were suffering with internal troubles which were aggravated by the vibration and noise of a machine shop. Such men were not adopted to application of the machinist experiment. But, by and large, it is found that war-blind, especially if they have had previous mechanical experience can be utilized for further work in their own line, thus saving the community from financial burden, and making them productive, self-respecting, independent members of the community.

The rise of the price of silver bullion is blamed for the money shortage. Hundreds of speculators, realizing the value of the metal is about 8 per cent above par, have melted all the silver and made it into bars for shipment to bullion dealers out of the country.

An aerial mail service soon will be started between two important coast towns in the Congo, seaplanes being used.

## TWENTY-FIVE YEARS AGO

Saturday, Feb. 9, 1895.  
Rev. H. P. Haylett preached at Plover the previous Sunday.

W. H. Fritchman of New York was expected in Kaukauna soon to see about putting in a system of water works.

The Kaukauna Times described a dining table in Wrightstown, once the property of Jefferson Davis, when he was living in Green Bay.

The new Kaukauna Furniture Co. elected the following officers, president, Dr. H. B. Tanner; vice president, Dr. J. Brothers; secretary and treasurer, Peter M. Ruter.

A son was born to Mr. and Mrs. Elmer Crider.

The owner of a horse supposed to be passed usefulness started to drive him to the dumping ground where he was to be killed, but on the way out the horse ran away.

Mrs. Mary Peslin, Spencer and Story streets, died, aged 76 years.

Mrs. Maggie Conroy died the day previous. She was the wife of a member of the No. 2 fire department.

Principal R. H. Schmidt and teachers and scholars of the Seymour high school drove to Appleton and visited the local schools and Lawrence University.

Rev. Henry R. Colman, born at Northampton, N. Y., Oct. 9, 1860, father of Henry Colman of Milwaukee, and Eliza Colman of Fond du Lac, died Thursday at Fond du Lac.

In 1840 he came to Green Bay as a missionary to the Indians. In 1846 he was one of Rev. Reeder Smith's companions in selecting the site of Lawrence University, and was a member of the first board of trustees of the institution.

Michael Griesbach and Anna Nussbaum of Greenville were to be married Feb. 12.

## FANCHON-MARCO REVUE

Novelty is the keynote of the noted Fanchon-Marco Revue. Let's Go!, which is announced for Feb. 12th at the Appleton Theatre. The revue type of entertainment has won for itself a warm place in the affections of those who seek unadulterated entertainment in the theatre, and from all reports, Let's Go! hits high-water mark among entertainments of this sort.

So successful was the Fanchon-Marco Revue that it ran for ten capacity weeks in San Francisco and was only withdrawn then because of booking arrangements that demanded it.

As dancers and creators of novelties, Fanchon and Marco easily hold the palm on the stage today, and in Let's Go! they are seen at their clearest.

Marco's skillful steps and violin virtuosity have won the wildest enthusiasm of audiences everywhere, while Fanchon's brightness, grace and charm are inimitable.

## Airman Points While Soaring

A new type of painting is being introduced in the galleries in England now by a member of the Royal Air force. The paintings are by Capt. A. E. Cooper, made while flying in a lighter-than-air machine over various picturesque spots in England. Great interest is being taken in these pictures by the people of England and especially by artists.

Thirty of his pictures are on display at the Prince's Galleries.

Many pictures of flying subjects have been painted on the ground. But Captain Cooper takes his palette and brush into the air. He has been astonishingly successful in his work, as the pictures attest.

"Edinburgh Castle From the Air" is described as being "quite wonderful" by critics; his "Aberdeen From R-25" is another one called an exceptional painting.

Captain Cooper is evincing some surprise at the popularity of his work.

"Most of the pictures were begun and finished in the air," the captain said. "It is a pretty quick job, too. One has to paint at top speed the whole time. It took three trips to complete some of them. I have painted more than 200 hours in the air."

"The slower the ship travels the better for painting. I don't think it would be possible to paint in the heavier-than-air type, as the machines are not steady and the speed is too great. I find the North Sea type of dirigible the most adaptable to the work. The best altitude, I find is about 500 feet."

Three of Captain Cooper's pictures have been bought by the Imperial War Museum for their historical interest. It is likely that his remarkable series of the R-34 starting out on her trans-Atlantic voyage will also become national property.—Kansas City Star.

## Personal Letter Uncovered

A sale of one of New York's valuable old libraries at the Fifth Avenue Art galleries has brought to light an interesting personal letter from Washington Irving, dated June 25, 1851. The letter was found in one of the volumes, where it had lain unnoticed for years. It was addressed to the father of the present owners, then chairman of the senate committee on literature.

A book publishing company had apparently written to Washington Irving, asking for an endorsement of its edition of Webster's Dictionary—and he had responded with a careful criticism of the volume.

"Then they had the disingenuousness," he writes, "to extract the favorable part of my opinion and insert it among the puts and advertisements, as if I had given unqualified approbation of the work."

The library which has yielded up this relic is one of those which have been for generations collecting. The books are bound in calf and morocco, while many are hand tooled. The owner's name is not made public.—New York Evening Post.

## Hair Dyes are Unknown among Chinese Women, as their Hair is Uniformly Black, becoming Gray only in extreme old age.

The hide of a cow represents 35 pounds of leather, and that of a horse a little more than half that amount.

## Health Talks

By WILLIAM BRADY M.D.  
NOTED PHYSICIAN AND AUTHOR

Dr. Brady will answer all signed letters pertaining to health. Writers' names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

## Breaking Up Coryza

Query: What simple but effective measures can be taken to break up a cold, at its beginning as well as after it has been running for some time? I have been told that one good way is to fast and drink plenty of water, preferably hot. Another is to drink hot lemonade, go to bed and indulge in a good old-fashioned sweat.

If that communication were read to me I could tell that it was written by a member of the credulous sex, young, unmarried, malleable, gentle—well her name should be Grisella Primp.

"I have been told" is a feminine phrase.

"Old-fashioned sweat" is a Priscilla Primp phrase. Sweating is neither vulgar nor old-fashioned.

There are any number of remedies on the market which are warranted to break up "colds," whatever they may be. If you believe in fairies, ghosts, magic, the influence of the moon, or the health, and the disease-repelling powers of linberger cheese or tety or camphor worn around the neck, you will also believe that some remedy or treatment will break up an identical infection which, in your ignorance, you are content for the moment to label a "cold."

I do not believe any known remedy or treatment will break up any known infectious disease, whether it is called "cold," pneumonia, typhoid fever or what not. But it seems reasonable to suppose that proper treatment often shortens the duration of such disease and mitigates its severity and lessens the immediate and permanent damage done by the infection, be it coryza, typhoid, influenza or what not.

The trouble with the average man is that he harbors an idiotic notion that he can "wear it out" or "fight it off" or "weather it with all sails set." His conception of the nature and pathology of an infection is a sort of fanciful theory gleaned from some almanac or patent medicine advertisement.

The first and best of all remedies for coryza or any other acute infection is complete rest in bed for a day or more, as the illness may require.

A hot mustard foot bath administered to the patient in bed, between blankets is, in my opinion, the next best remedy we have for such an illness.

## FOUR YEAR MYSTERY CLEARED AT KENOSHA

Kenosha, Wis.—Death cleared up a four year mystery here on Thursday when Mrs. Frederick Vogt, Chicago, identified as that of her husband, Frederick Vogt, the body of a man who fell dead Tuesday night while firing a furnace at a local factory under the name of John Smith.

Wife and daughter of the deceased told how Vogt had dropped out of their life four years ago, when, after a domestic quarrel, he had disappeared. The news of his death was the first that had been heard from him since that time.

Vogt, 54 years old, had been a well to do stone cutter at Chicago, but in Kenosha had been employed as common laborer. In his pocket was found an insurance policy for several thousand dollars, which he had kept paid up and which was left to his wife and daughter, Miss Feryl Vogt. Papers in his pockets also revealed that he had worked in Rhineland, his boyhood home, also in La Crosse, since he disappeared from Chicago. The remains were taken to Eagle, Wis., for burial.

## DEATH CAR DRIVER IS GIVEN SENTENCE OF YEAR

Milwaukee—Pleading guilty to a charge of failing to stop after injury, Joseph Routh, driver of the death car which killed 10 year old Robert Braden on the night of November 16, was sentenced to serve one year in the house of correction by Judge A. C. Backus in Municipal court.

In sentencing Routh, Judge Backus took into consideration the settlement made with the parents of the boy, Mr. and Mrs. Samuel Braden, 215-A Michigan street, who were paid \$2,000 on Monday, and also the fact that the driver of the car did not ask a jury trial.

## MADISON TEACHERS GRANTED MORE PAY

Madison—Madison school teachers who signed contracts for the 1920-21 term will receive higher salaries. The Madison board of education, after a long debate behind closed doors on Tuesday night, voted to increase wages paid to teachers. Superintendent S. D. Dineen was instructed to assure teachers that the salary schedules would be revised, the amount of increase to be fixed at the next meeting of the board.

## FINDS \$25 CHECK: HAN BULLY TIME, BUT—

Kenosha, Wis.—Michael Kolowski, 10 years old, was a "prince for a day" here on Thursday. He found a check for \$25, then took the money secured thereby to show his boy friends the time of their lives. He took them to the 10 cent store and told them to buy their fill. Then he footed the bill. Several hours later he was found by the police and had only \$2.10 left of the money. The judge has the case under advisement.

## COUNCIL WILL NOT PURCHASE BORN PARK

Sheboygan, Wis.—Born's park will not be purchased by the city for \$40,000, according to an action taken by the common council. The mayor vetoed a resolution providing that the question of purchasing the park be submitted to a vote of the electors, and there was an insufficient number of votes opposing the veto to override it.

ness or indisposition. This requires a trained nurse or at least an attendant who has something more than a mere instinct or hankering to care for the sick. It isn't merely the sweating produced; it is the equalization of circulation brought about by this measure. Some of the best physicians have nurses administer hot mustard foot baths three to six times a day for several days in serious cases of pneumonia.

A fast of twelve to twenty-four hours is usually advisable for one with acute coryza or other acute respiratory infection. And the more water taken the better. Or lemonade or any mild beverage, cold or hot as preferred.

Often, not always, a brisk salt cathartic should be given the patient. A dose of Epsom salts, or, if that seems impossible, a bottle of solution of magnesium citrate (this is especially agreeable for children.)

Of course, everybody must keep out of the patient's five-foot barrage. And if recovery is not under way in twenty-four hours it is true economy to call the doctor.

**QUESTIONS AND ANSWERS**  
**Karell Conduces to Poetry**  
This regimen of Doc Karell's is surely a dream. Friend Wife drinks all the skimmed milk and I get all the cream. (C. S.)

**ANSWER**—That is the trouble in too many households.

**Who Can Give Vaccines?**  
I noticed you suggested vaccine treatments, or one of your contributors reported success with such treatment for chronic stiffness of the nose and frequent so-called colds. Where can one have such treatment applied? (B. M. R.)

**ANSWER**—Any physician can obtain from the patent the material for culture, and have the vaccine (properly bacterin) prepared and administer it.

**Multiple Sclerosis**  
Kindly inform me what multiple sclerosis is, the symptoms and the outcome. (R. J. A.)

**ANSWER**—A disease of the brain and cord, of unknown cause, characterized by little islands of hardening or degeneration. Let I offend the almanac makers, Old Doctor Bunkum, and the nostrum exploiters. I refrain from suggesting symptoms in a world already more than well supplied therewith. The few cases with which I am familiar have continued without much change for years.

## Announcement

We wish to announce that we have a complete new line of designs of monumental work to select from.

We will be located in our new place of business at 704 Appleton St. March 1st, but we are now ready to solicit orders. We will handle the best of material and all work guaranteed.

# MABLE GARRISON

## Soprano CONCERT

6TH NUMBER

# Appleton's Community Course

Tuesday, Feb. 10

8:20 P. M.

# Lawrence Memorial Chapel

Reserved Seat Sale opens at Y. M. C. A. Monday at 9 A. M.

# Chronic Sufferers

I want to talk to you. The fact that you have been treated elsewhere without benefit does not discourage me in the least; I am helping men and women every day effecting cures, many times in cases pronounced incurable by others, so that I feel sure I can do as much for you. My counsel will cost you nothing but my charges for treatment will be reasonable and not more than you will be willing to pay for the benefits conferred.

I treat Rheumatism, Nervousness, Stomach and Heart Troubles, Catarrh, Blood and Skin Diseases, Constipation, Urinary and Kidney Diseases and Diseases peculiar to women.

**Dr. Turbin,** who has visited Appleton for the past twenty years, will be again in

**Appleton, Monday, March 1st at the Sherman House.**

Hours 9 A. M. to 8 P. M. and every fourth Monday thereafter.

**FREE CONSULTATION**

**URINARY, KIDNEY AND BLADDER DISEASES.** Obstructions, Straining, Pain in Back, Bladder and Kidneys, Enlarged Gland, Nervousness, Swelling.

**LADIES:** If you are suffering from persistent headache, Painful Menstruation, Uterine Displacements, Pains in the Back, and feel as if it were impossible for you to endure your troubles and still be obliged to attend to your household and social obligations, I will cure you if your case is curable.

I treat Dropsy, Rheumatism, Fistula, Piles, Constipation, All Rectal Diseases, STOMACH TROUBLES, Pain in Stomach, Loss of Appetite, Dyspepsia, Indigestion, Bad Taste or Breath, Sick Headache, Bloating, Heartburn, Sour Belching, Catarrh, Gas, Gnaur, Nervousness.

**HEART WEAKNESS.** Fluttering, Skipping, Palpitation, Pain in Heart, Side or Shoulder Blade, Short Breath, Weak, Sinking, Cold or Dizzy Spells, Swelling, Rheumatism, Throbbing in Excitement or Exertion.

**CATARH, Hawking, Spitting, Nose Running, Watery or Yellowish Matter or Stopped Up, Sneezing, Dull Headache, Coughing, Deafness, Pains in Kidneys, Bladder, Lungs, Stomach or Bowels may be Catarrh.**

**DR. TURBIN**  
Garick Building CHICAGO

# Society

**Zionist Dance Tomorrow**  
The dance given by the Appleton Zionist society will be held tomorrow evening at Odd Fellows hall. Scholl's Jazz orchestra of Neenah, will furnish music. More than 100 couples, including many from all over the state, are expected to attend. Mr. and Mrs. I. Bachall, will entertain about 150 guests at Odd Fellows hall in the afternoon of their son Edward, who celebrates his thirteenth birthday Sunday.

**Miscellaneous Shower**  
Miss Leona and Laurine Wettengel entertained twenty friends at their home, State street, at a miscellaneous shower in honor of Miss Genevieve Boehler whose marriage to Robert Steffen of Hortonville, will take place in the near future.

**Parent-Teachers Meeting.**  
More than 500 people attended the dance and card party given by the Parent-Teachers association at Washington school Friday evening. Prizes at cards were won by Mrs. Emil Kloes, Albert Hasse, Joseph Hopfens-

for the Armenians will be taken at an adjourned meeting of the organization next Monday evening, February 16. The matter was thoroughly discussed at the meeting Thursday evening but no decision was reached.

**Dance Well Attended.**  
About one hundred and fifty couples attended the dancing party given by the Onay Johnston Post of American Legion at the armory Friday evening. Scholl's jazz orchestra of Neenah furnished music.

**Birthday Party.**  
Miss Laura Kottke, Drew street, entertained fourteen friends at her home Friday evening in honor of her birthday anniversary. Games and music furnished entertainment. A dainty luncheon was served.

**Entertained at Dinner**  
Miss Altha Nelson entertained at dinner last evening in honor of Miss Marie Broehl of Manitowoc, who with several friends, was in the city to attend the American Legion dancing party.

**Farewell Party**  
Mr. and Mrs. Ernest Favel entertained at dinner last evening at their home, 636 Commercial street, in honor of Mrs. H. R. Sheldon, who is about

**THREE DAY TRACTOR SCHOOL BEGINNING MONDAY, FEBRUARY 9TH**  
Farmers Attention!  
An International Tractor Co. 10-20 Titan Tractor will be torn down and reassembled. There will be instruction on the ignition, oiling and transmission systems. Every Farmer is cordially invited to attend the three-day school, especially the tractor owners.  
**GREELEY IMPLEMENT CO.**

perger and Walter Brinkman. Music for the dance was furnished by the ten's orchestra. Refreshments were served.

**Pythian Sisters Meet.**  
A regular meeting of the Pythian Sisters will be held Monday evening at Castle Hall.

**Marriage License**  
Application for a marriage license was made this morning to Herman J. Kamps, county clerk, by George Shaw and Martha Ahrens of Center.

**Marriage License**  
Application for a marriage license was made this morning to Herman

to move to Wausau to reside. The evening was pleasantly enjoyed in a social way, twelve guests being present. Those attending from out of town were Miss Caroline Rasmussen and Walter Favel of Fremont.

**Meet Sunday Evening**  
The Holy Name societies of St. Joseph and St. Mary churches will hold their regular meetings at 7:30 o'clock Sunday evening.

**Jolly Bachelors' Party**  
The Jolly Bachelors gave a dance at Castle hall last night that was attended by thirty-five couples. Music was furnished by the Synco-Pop Jazz orchestra.

**Acacia Club Party**  
All master masons have been extended an invitation to attend the second of the series of dances of the Acacia club, which is to be held Monday evening at Odd Fellow hall. The dancing will start at eight o'clock and last until 12 o'clock. Gibson's harp orchestra is to furnish the music.

**Surprise Party**  
The Fourth grade girls of the Franklin school surprised Miss Mildred Schultz, Summer street, at her home this afternoon. The afternoon was spent in playing games and refreshments were served.

# OBITUARY

**MRS. HARRY WELHOUSE**  
Mrs. Harry Welhouse of Winona, Minn., who came to Appleton two weeks ago to visit her parents, Mr. and Mrs. Frank Van Loan, 775 College avenue, died of pneumonia at 2:30 o'clock Friday afternoon. She was suffering from a cold and complained of not feeling well when she reached here. Besides her husband and parent the decedent is survived by one sister, Mrs. M. S. Wood of Pewaukee, and three brothers, R. S. Van Loan of Stevens Point, Albert of Milwaukee and Carl at home. The funeral will be held from St. Joseph church at nine o'clock Monday morning and will be private.

**MRS. BARNEY SCHOMMER.**  
Word has been received here of the death of Mrs. Barney Schommer of Colby, formerly Miss Katherine Gueff of this city, at her home at Colby Thursday. She was 35 years old. Death was due to influenza.

**JOHN MEYER**  
John Meyer, 76 years old, a resident of Appleton for forty years, died suddenly at his home on Fifth street at four o'clock Friday afternoon. Heart failure was the cause of death. He is survived by his wife, a son, Charles, of Milwaukee; three daughters, Mrs. Charles Schmitz, Mrs. Joseph Nicash and Mrs. Warren Root, all of Appleton; and 22 grandchildren. The funeral will be held at three o'clock Monday afternoon from the late home. The Rev. T. J. Sauer will have charge of the services. Interment will be made at Riverside cemetery.

**GOEDEN FUNERAL**  
Funeral services for Miss Helen Goeden were held at nine o'clock this morning from St. Joseph church, a large number of friends and relatives attending. The pallbearers were Joseph Dohr, Henry Kraus, William Marx, Stephen Schaefer, George Schiedemeyer and Anton Koehn. Burial took place in St. Joseph cemetery.

**ARNOLD L. GOSSE**  
Arnold L. Gosse, a resident of the town of Freedom for the last three years, died at his home at three o'clock this morning of pneumonia. Mr. Gosse was taken ill Monday with

influenza. He was 25 years of age and lived in Cicero up to three years ago. He leaves a wife and one son, Elmer; two brothers, Edward of Cicero and Robert of Seymour; five sisters, Mrs. Anna Cornal, Canada, Mrs. Ida Greinert, and Mrs. Bertha Otto, Ellington; Mrs. Elmer Schultz, Center; and Miss Stella Gosse, Cicero. Funeral services will be in private from the residence at 1:30 o'clock Tuesday with the Rev. J. J. Pfefferkorn in charge.

**MRS. CHARLES MODER.**  
Mrs. Charles Moder, Appleton street, 25 years old, died yesterday at her home after a ten day illness with influenza-pneumonia. Surviving the deceased is her mother, Mrs. Helmann, Appleton; her husband; a brother, William of Regina; and five sisters, Mrs. Charles Rawlins, Mattoon; Mrs. Frank Wood, Regina; Mrs. Gustave G. Brumwood; Mrs. Louis Steffen, Miss Ella Helmann, Appleton. Funeral services will be held at 1:30 o'clock Monday afternoon from the late home, and will be in private. Burial will be at Riverside cemetery. Services will be conducted by the Rev. T. J. Sauer.

**HOTEL EMPLOYE BADLY INJURED AT NOON TODAY**  
Frank Dettman is Thrown Under Sleigh and Horse Tramples on Him-Taken to Hospital

Severe injury was suffered by Frank Dettman, an employee of the Peter Starks hotel, at noon today. He had unhitched a team belonging to Henry Holtz, a Black Creek farmer. One tug had not been fastened and as he led the horses away from the sleigh, one of them was jerked back suddenly. In some manner, both horses swung around toward where Dettman was standing, and he was flung against the sleigh. One runner was dragged over his shoulder, and one of the horses trampled on his wrist. In addition, Dettman was kicked about the face. Medical aid was summoned, and after first aid had been administered, he was taken to St. Elizabeth hospital. It is not known as yet whether internal injuries resulted.

**Card of Thanks**  
We wish to thank our neighbors and friends for their kindness in floral offerings, also the kind words of the Rev. Janke, and the singing choir, during the recent bereavement of our daughter and sister Salena Krueger. Mr. and Mrs. John Krueger and children.

# SHARP BREAK IN ALL FUTURES TODAY

LARGE RECEIPTS, LARGE SALES BY EXPORTERS AND LIQUIDATION ARE THE FACTORS

By United Press Leased Wire  
Chicago—Grain futures broke 1c and 2c on the Chicago board of trade today.

Larger receipts, large sales by exporters and general rush to liquidate holdings brought the drop.

Corn Feb. opened late at \$1.35 1/2 down 2 1/2 and lost 1/2 more at the close. March dropped 2 1/2 from the close to \$1.32 1/2. May was up 1/2 at the opening \$1.31 but later lost two closing at \$1.29. July opened unchanged at \$1.27 1/2 and later dropped 1 1/2 more.

May oats opened up 1/2 at 77 1/2 and lost 1 1/2 and closing at 75 1/2. July opened up 1/2 at 70 1/2 and dropped 1 1/2 to 68 1/2 at the close.

The feature of the trading this week on the board of trade was the general selling activity of Canadian and northwest houses. Conditions made export trade impossible, grain men said, and the northwest is unloading its stock on the domestic market. Traders are getting set for the pending return of the grain trade to a pre-war basis, they said.

# MONEY SITUATION HAS BEEN RELIEVED

WEEK'S LIQUIDATION OF STOCK BRINGS RESULTS—STOCK MARKET OPENS HIGHER

By United Press Leased Wire  
New York.—Prices were for the most part higher at the stock market opening here today. United States Steel was up 1/2 at 100 1/2. Studebaker opened at 95 up 1 1/2. Reading at 71 1/2 up 1 1/2. Republic at 72 1/2 up 1 1/2. Grueble at 209 up 2 1/2. International Paper, 76 1/2 up 1 1/2. S. Rubber 105 1/2 up 2 1/2. Baldwin at 111 1/2 up 1 1/2. Southern Pacific 95 1/2 up 1 1/2. Bethlehem B. 90 1/2 up 1 1/2. Union Pacific 117 1/2 up 1 1/2. U. R. Stores 75 1/2 up 1 1/2. Sinclair 37 up 1 1/2. General Motors 270 up 2 1/2. Mexican Petroleum 179 1/2 up 1 1/2.

This week's heavy liquidation of stock has greatly relieved the money situation. In some quarters, it was estimated stock exchange borrowing has recently been reduced by \$100,000,000 but considerable uncertainty still exists over the immediate outlook and this was reflected in the first half hour of today's trading. Steel common reacted from 100 1/2 to 99 1/2, the third straight day this stock has broken below par. General Motors fell from 270 to 263 1/2. Mexican Petroleum from 179 to 177 and Studebaker from 95 to 93.

Chandler led an upswing which got underway around the close of the first hour, selling up to 122 1/2, up 3 net. General Motors rebounded from 263 1/2 to 266 and steel common recesses par. Railway steel spring was strong at 92 1/2 up 2 1/2.

Prices continued to improve throughout the second hour and final dealings saw materially higher levels among active issues. Steel common sold at 100 1/2, up 1 1/2 net; International Paper at 78 1/2 up 2 1/2; Mexican Petroleum at 181 up 2 1/2; General Motors at 272 up 4 1/2; American International at 100 up 2 1/2; Baldwin at 111 1/2 up 1 1/2; American Woolen at 139 1/2 up 2 1/2.

The market closed higher.

# ABOUT TOWN

**NEW WAGE SCALE**—C. A. Potter and W. G. Davis of the Northwestern Railway company were called to Chicago this morning to attend a conference of the Brotherhood of Railway Clerks which was called for the purpose of considering the new wage scale which is now before congress.

**FLU IN RIPPON**—Dr. H. E. Peabody, who was to address the college students at Ripon Sunday afternoon, has been notified not to come because the seriousness of the influenza situation there has necessitated omitting the meeting. His subject was to have been "Spiritual Life and Public Service." Dr. Peabody will remain here to speak at his church tomorrow.

**SPECIAL SPEAKER**—President S. F. Kerfoot, D. D., LL. O. of Hamline University, will preach tomorrow morning at the First Methodist church. The service will begin at 11 o'clock. The Chorus Choir and Mrs. Quinlan will furnish the special music.

**SCOUT PROGRAM**—Eight boy scouts will give a demonstration of scout training before the members of the Rotary club Monday noon at the Y. M. C. A. Next week is booster week for the scout movement, and the scout program is planned to enlist new interest in its work.

**EXAMINATIONS**—Clerk carrier examinations are being held at the postoffice today, by the local civil service board. Only three applicants appeared to qualify.

**ADD FEW WORDS**—A recent amendment to the postal laws provides a slight change in the wording of the return card on stamped envelopes, if desired, according in orders received by the local postoffice. The ruling permits the words "Return postage guaranteed" to be added a change which a great many business houses have demanded.

**HARD TIME DANCE** FEB. 11 HAMPSHIRE CORNERS. GOOD MUSIC. FOUR PRIZES GIVEN. 2-10

## EVANGELISM MEET AT THE METHODIST CHURCH TOMORROW

REPRESENTATIVES OF NEENAH, MENASHA AND KAUKAUNA CHURCHES WILL MEET HERE

A large number of Kaukauna, Neenah and Menasha Methodists will be in the city to attend the Evangelism Conference at the Methodist church tomorrow afternoon and evening. The program has been completed and includes a number of talks by the pastors of the various Methodist churches represented and other, from out of town.

The speakers of the afternoon session will be the Rev. F. E. Foss of Menasha; the Rev. A. E. Tink, Kaukauna; Mrs. W. A. Newing and Dr. I. B. Wood of Appleton. At 6:30 o'clock in the evening, a meeting of the "Big Four Epworth League" will be held. Douglas Stove of Menasha to preside. This organization which has been in existence for some years is composed of members of the Epworth Leagues of Neenah, Menasha, Kaukauna and Appleton Methodist churches.

The evening meeting will be called at 7:30 o'clock. Prof. L. C. Schlusman, of Kaukauna, Major F. J. Schneller of Neenah, and the Rev. C. W. Heywood of Neenah will be the speakers. Representatives of the Student Volunteers of Lawrence College will also give short talks.

The visitors will be the guests of the local Methodist congregation and supper will be served to them by the ladies of the local church.

Miss Laura Bohn is back at her duties in the Wisconsin and Northern Railway office after an illness of several days.

**BARBERS MEET**—The Barbers' Union will meet Monday night at Trades and Labor Council hall. Several important matters will be up for consideration.

**RIVER OPENING**—Ice in Fox river below the city is breaking up and will be out within the next two days. The river has been frozen over continuously since early in November for the first time in recent years. The launches in the boat houses are still fast in the ice. On January 24 last year a launch made its first trip to Kimberly and back and encountered no ice the entire distance.

**BUYS FARM**—Gustave Paeth, 1262 Appleton street, has purchased a 70 acre farm in Grand Chute from Ludwig Pawlowski and will take possession immediately.

**TEACHER ILL**—Miss Mildred Carter, a member of the Outagamie county training school faculty of Kaukauna, who was taken ill a few days ago, has been removed to St. Elizabeth hospital, where she is in a critical condition.

**CALL OFF MEETING**—Dr. Samuel Plants did not leave this morning as intended for New York where he was planning to attend the meeting of the executive committee of the mission conference of the Methodist church. A telegram was received this morning announcing the postponement of the meeting but no reason was given.

**RAIL MEN MEET**—The United Brotherhood of Maintenance of Way Employees will hold a regular meeting at Trades and Labor Council hall next Tuesday evening.

## FISTIC DISPLAY FAILS TO AVERT ANTIGO'S DEFEAT

HIGH SCHOOL WINS FIFTH STRAIGHT VICTORY IN EXCITING CONTEST AT "Y" GYMNASIUM

Appleton high defeated Antigo at the Y. M. C. A. gymnasium Friday night by a score of 24 to 10. It was the fifth straight victory of the year for Coach Vincent's quintet.

The spectators got plenty of excitement for their money, even though the score wasn't close. Players of both teams were continually getting tangled up with each other, and the first ten minutes of the second half resembled a bar-room riot. The visitors were held scoreless in this half, their activities being devoted mostly to an exhibition of the fistic art.

The contest was stopped repeatedly while the players, referee, and Antigo coach "chewed the rag." After ten minutes of the last half a lengthy conference followed which sobered up the players of both teams, and the game was finished without more scrapping.

While the visitors appeared to be forcing the issue, the handling they received as a result was anything but pleasant. Twice visiting players were knocked to the floor in the mix-up and were brought around after about five minutes.

Antigo took the jump by scoring a free throw, but Briese made a pretty field goal which sent Appleton into the lead. Appleton scored again, but the visitors came back with a goal. The first period ended 11-10, the locals leading.

Antigo never had a chance in the second period. The Appleton defense showed up strong, and held the visitors scoreless. Appleton scored six baskets and a free throw in this period.

Briese and Jacobson did the best floor work for Appleton.

## LITTLE CHUTE WALLOPS SHIOCTON HIGH CAGERS

The Shiocton High basketball team met more than its match in the game with the Little Chute five at Little Chute Friday evening. It was almost a walkaway for the latter, the game ending with a score of 37 to 7.

## CLAUDE H. SNYDER BUYS LYONS BLOCK ON COLLEGE AVE.

RESTAURANT OWNER INTENDS TO OCCUPY QUARTERS NOW USED BY CARROLL'S MUSIC SHOP

Claude H. Snyder, proprietor of the restaurant at 811 College avenue, closed a deal yesterday by which he came into immediate possession of the Lyons' block at 821 College avenue. The purchase price was not made public.

The first floor of the building is occupied by Carroll's music shop. Mr. Snyder stated this morning, that eventually he intends to occupy it, but for the present the tenants would not be disturbed.

"When I decided to make the change," said the new owner this morning, "I intend to open the most modern and sanitary restaurant in this part of the state. It will be furnished with all the latest equipment and will have about double the capacity of my present quarters." Mr. Snyder was negotiating for the Rosemeiss building immediately west of the Lyons' building at the time it was sold to Gil Myse, but the tenant occupying it was given first choice.

## SHORT NOTES

Sam Ullman of Antigo, visited in the city today.

H. C. Steidl of Menasha visited in Appleton Friday.

E. M. Johnson of Green Bay was a visitor here Friday.

William Bolson spent Friday evening at Kaukauna.

J. H. Tenbrook of Milwaukee, spent Friday here on business.

Conrad Keelan of Milwaukee is visiting Appleton friends.

Eunice Rimmel of Wrightstown, visited friends here yesterday.

Dr. John Huhn, veterinary surgeon at Black Creek, visited here today.

James Brown, ex-police chief of Neenah, was a visitor here today.

Miss Mary Salmon left this morning for Chicago on a business trip.

Albert Tracer of Kaukauna was a business visitor here this morning.

Miss Violet Schumann will spend the week-end visiting friends at Antigo.

Carl Rogers and Otto Luebke of Kaukauna spent Friday in this city visiting.

J. Ornstein returned last evening from a business trip of several days in Chicago.

E. A. Walthers left this morning for Waupesa where he has business matters to look after.

Miss Ellen Malone and Miss Alma Brill left today for Waukesha to attend a week-end party.

Frank Verrier plans to go to Milwaukee tomorrow to attend the state skating tournament.

The schedule trip of the Appleton Y Ski club for this afternoon was called off because of the warm weather.

Miss Marie Luedeke of Green Bay is spending the week-end as the guest of Mrs. John Ehlike, 952 Spring street.

Alvin Hauert, who has been critically ill with pneumonia for the last week, is now out of danger and is making rapid progress.

Mrs. Louis Liese of Plymouth is visiting in the family of her son, A. W. Liese, where she will be a guest for the next few weeks.

Mr. and Mrs. O. P. Schlafer returned last night from Milwaukee, where they attended the annual meeting of the Wisconsin Retail Hardware Dealers' association.

R. M. Falk, who is in the hardware business at Embarrass, is calling on Appleton friends. At the time he left here ten years ago he was employed at J. J. Hauert's hardware store.

Evangeline Rosemeiss, daughter of Mr. and Mrs. Oscar Rosemeiss, is at St. Mary hospital, Milwaukee, where she has just had a cast removed from her limb. She is recovering rapidly.

Carroll pushes local team out of running

Lawrence Basketball Team Defeated at Waukesha by 34 to 28 Score Last Night—Play Cadets Tonight

Lawrence college basketball team was practically eliminated from the conference race as a result of the 34 to 28 defeat at the hands of Carroll at Waukesha Friday night.

Coach Beyer's team put up a splendid fight, and but for some tough luck might have emerged on the lone end of the count. Larson and Kubitz, forwards; Smith, center; and Waterpool and Lean, guards, started the game for the Blue and White.

Lawrence will play the cadets team at St. John military academy at Delafield tonight. The Blue and White expect a victory, being already credited with one win over the cadets.

## NEW MEXICO'S CLIMATE IS LIKE WISCONSIN

Oscar Rosemeiss has arrived at Silver City, New Mexico, and writes home that he notices very little difference in the climate of that state and that of Wisconsin. He says that everything is frozen up and there is quite a little snow on the ground. Kentucky, he said, was visited by the worst blizzard in its history just before he left there. The trolley and telegraph wires were all down and the roads were blocked with snow. The storm extended east to the Atlantic coast.

## ENTIRE FAMILY WAS NEAR DEATH FROM COAL GAS

FAMILY OF ALLAN A. NEWBERT NEARLY ASPHYXIATED WHEN GAS ESCAPES FROM FURNACE

Coal gas escaping from a hot air furnace nearly cost the lives of several people at the home of Allan A. Newbert, 539 Washington street, last night.

About three o'clock in the morning one of Mr. Newbert's two daughters awoke with a sickening sensation, and realized that the house was full of gas. In the house, besides members of the family, were C. H. Bullis, musical director at Lawrence college, and Miss Ella Gustin of Plainfield, both of whom room there. Making her way to her father's room, the daughter aroused him with difficulty, and two doctors were called. Finding some of the sleepers unconscious, the police and George P. McGillan, fire chief, were summoned and rushed a pulmotor to the home. All were quickly revived except one daughter, whose life was almost extinct. Diligent work with the pulmotor finally restored her breathing. Several are still confined to their beds, but their condition is no longer serious.

## 111 STUDENTS AT COLLEGE PREPARING FOR TEACHER'S LIFE

VOCATIONAL SURVEY AMONG LAWRENCE STUDENTS BRINGS INTERESTING FIGURES TO LIGHT

Dr. E. W. Blakeman of Madison, was the chief speaker at the meeting last night at the Conservatory as part of the Life Service Conference being conducted at Lawrence. His subject was "The New Thought Relation." Dr. B. Smith of Minneapolis, also gave a short talk.

Following the services, the students were divided into four sections which will meet this afternoon for conferences with the members of the team sent out by the Interchurch World Movement. Group conferences and personal conferences will be given throughout the conference.

The purpose of the conference is to help students find their life work and where possible to induce students to enter the large field of work directly connected with the church. In order to facilitate the work of the conference, a vocational survey of the students was taken during registration. Each student registering was given a blank to fill out with a statement of the vocation he or she was planning to enter.

The result of the survey is interesting as being indicative of the general plans of the students. The students who are preparing for the teaching profession are in the majority, numbering 111. Eighty-eight students are preparing for business; 34 for social service; 31 for engineering; 20 for chemistry; 18 for medicine; 16 for law; ten for the ministry; 12 for journalism; three for agriculture; four for clerical work; two for nursing; two as librarians; two as missionaries; one as dentist; 44 are undecided.

All the students did not sign up as can be seen from the total number. The purpose of the survey was to give the members of the team some idea of what the students of Lawrence needed.

Another meeting will be called at seven o'clock tonight at the Lawrence conservatory. President Kerfoot of Hamlin University, Minneapolis, will be the speaker.

## TENDER OFF TRACK BUT KEEPS GOING

ENGINEER NOT AWARE OF ACCIDENT UNTIL NEARLY A MILE IS TRAVERSED—TRAINS DELAYED

The flange on one of the wheels of the tender of the 3:45 south passenger train of the Northwestern road became detached near Campbellsport Friday afternoon causing the tender to run on the ties for nearly a mile before the attention of the engineer was called to it.

The baggage men heard a terrific noise ahead of them and saw the snow hurled into the air, but did not know the cause of it. They endeavored to get the attention of the engineer, but failed to until they set the emergency brake.

An investigation was immediately made and it was found that the tender had been derailed and was running on the ties. The track was badly damaged, but none of the coaches were derailed.

A wrecking crew from Milwaukee was dispatched to the scene and after disposing of the tender made temporary repairs to the track. The north bound passenger train due here shortly after eight o'clock was delayed until after midnight.

Mrs. Charles Luedeke of Oshkosh visited at the home of her daughter, Mrs. John Ehlike, 952 Spring street today. She leaves this evening for Hilbert to attend the funeral of Frank Koffarnus, Sr., who is her uncle.

Several officials of the Chicago, Milwaukee & St. Paul Railway company were in Appleton yesterday, among them, D. W. Kelly, trainmaster, and R. P. Junker, demurrage inspector, J. N. Davis, assistant freight inspector, of Milwaukee, and P. N. Nugent, roadmaster, of Green Bay.

## NEAR EAST FILM TO BE HERE ON MONDAY

MOTION PICTURE AND ADDRESS: MAKE UP PROGRAM FOR MEMORIAL CHAPEL MEETING

The Near East Relief committee has secured the moving picture film taken in the near east countries under the supervision of Herbert Hoover and will present a program Monday night

at the Lawrence Memorial chapel in connection with the picture. The picture was taken under the auspices of the government and portrays the true conditions of those wretched countries. The program will open at 8 o'clock with a talk by Dr. I. B. Wood. The picture itself will take forty-five minutes for presentation. No admission will be charged and it is expected that the crowd will fill the chapel.

Miss Caroline Maurer of Stevens Point is visiting in the family of Edward Mauer, 553 Walnut street.

Walter Green left this afternoon for Green Bay to visit Frank Murphy for Appleton, who is confined in St. Vincent hospital. Mr. Murphy submitted to an operation for double hernia a week ago. His condition is much improved.

Edward Lang is confined to his home with a severe cold.

Mr. and Mrs. Amos Meydam will leave Sunday for Peoria, Ill., after having attended the funeral of Mr. Meydam's father here.

Erigader John Smith of Milwaukee, will have charge of the Sunday services at the Salvation army hall tomorrow. Envoy Walter Jeffery will sing at all the meetings.

## APPLETON GEENEN'S WISCONSIN NEW IDEAS IN SPRING FABRICS

From Our Yard Goods Section

SPRING WOOLENS

FANCY VOILES

OF BEAUTIFUL SOFT TEXTURE

IN DESIGNS THAT PLEASE

All Wool Jersey in Pekin blue, American beauty, Robin's egg blue, navy, brown, bark, copen black, and also the new pastel shades, pink, peach and white. 56 in.—\$4.50 yd.

## GOV. CATTS MAKES WARM CAMPAIGN TO GET SEAT IN SENATE

FLORIDA'S GOVERNOR EXPECTED  
TO PUT PER IN SENATE IF  
HE SUCCEEDS IN  
CAMPAIGN

By Lee J. Smith  
(Special to Post-Crescent)

Tallahassee, Fla.—Sidney J. Catts, governor of Florida, is conducting a picturesque campaign for the United States senatorship, and if he succeeds, the nation will have a character to afford mirth and amazement; to relieve, as many another primitive American has done, the solemn atmosphere of the legislative chambers.

Itinerant Baptist preacher, venter of horse liniment and whole-souled champion of the "Cracker" native against the world at large, the Hon. Sidney J. Catts rode into office on a flivver while Florida politicians gasped.

He arrived in Florida a few years ago from Alabama and, as his numerous enemies say, "hit running." He campaigned, preached and peddled simultaneously. After haranguing a Cracker crowd from the rear seat of a flivver, he would take up a collection to defray his expenses into the next town.

He proclaims himself "the Cracker candidate." He announces that world affairs interest himself not at all and that he will apply all his energies, if elected, to getting appropriations and other favorable legislation for Florida.

He vehemently appeals to religious prejudice, picturing all sorts of weird dangers threatening the freedom and peace of the state.

But at the same time, he is the enemy of corporation control, which is a very real peril in a state of such vast undeveloped resources as Florida's. His foes admit that he is fervently sincere.

Governor Catts' right eye is missing, which gives him a superficial resemblance to the late Pitchfork Ben Tillman.

His oldest son is adjutant general of the state, another son is harbor master at Key West, his daughter is his secretary and he appointed his son-

in-law tax collector of Duval county to fill a vacancy.

"You've got to hand it to the Catts family," said a man who is fighting the governor tooth and nail. "Young Sidney was appointed captain of a Tallahassee company when the war broke out. The company went into the woods and elected a captain of its own, refusing to serve under the son of the governor. Sidney promptly enlisted as a buck private sailed for France—and came back a captain with a splendid record!"

Governor Catts is distributing copies of his achievements in office. One of the acts to which he points with special pride is the vetoing of a dog-tax bill, "thus giving the farmers and all our citizens of the state the right to have their faithful dog untaxed."

That veto was a vote-getter, as anyone will understand who has observed the packs of dogs dwelling in, under and around a Cracker cabin.

"WATCH YOUR STEP"  
IS FLU SLOGAN

Toledo—"Watch your step" is the anti-flu slogan here. And it means, keep your feet dry. Health Commissioner Waggoner figures there is one chance in 4800 of a Toledoan getting the flu, judging from the number who now have it and the population.

Eskimo Dogs

An Eskimo dog has a hard lot. In the first place it has to earn its living by drawing sledges. In the next place, food is so scarce that a dog is usually hungry, often hungry enough to eat its harness, or indeed any bits of skin and leather it can find. To prevent this, the men rub the leather cords with tar. But in order to live at all an Eskimo dog has to fight its way. Whenever there is a pack of dogs together they fight. The weak ones are driven away or killed. The strongest and fiercest one, who can thrash any or all the others, is known as the "ding dog." It has the best place upon which to lie and its choice of the food.—Exchange.

JUST JOKING  
A Familiar Piece

Cameron (inspecting the newly furnished dining room in Letson's house)—It's fine, old man! There's something about it that makes it look remarkably homelike.

Letson—I guess it's the sideboard, Cam. It's the one that used to be behind Tim Leary's bar.—Judge.

## LAST OF THE A. E. F. TO RETURN PARADE IN NEW YORK

New York.—The last detachment of the A. E. F. to return from France paraded up Fifth avenue to the Public Library. The men were guests of the Rocky Mountain Club. Inset picture is of Brig. Gen. D. O'Connor, commander of this outfit.

## PRICES REMAIN UP DESPITE MUCH TALK

REPORTS THAT PRICES ARE FALLING ARE NOT BACKED UP BY FIGURES FROM COUNTRY

By George B. Waters  
(Special to Post-Crescent)

Washington, D. C.—Despite all the talk about lowering the high cost of living, and the "helpful co-operation" the attorney general's office is receiving from business men, the cost of food is now higher than it has been before in the history of America.

The new level for food is 97 per cent increase since 1913, just reported by the Bureau of Labor Statistics. Department of Labor. These were the figures for December 15, 1919.

Reports of lower prices are not borne out by statistics of retail prices which are carefully collected and compiled by the Bureau of Labor Statistics. It was declared at the Labor Department.

Monthly reports are made from 50 cities on 22 articles of food. It is interesting to note how the numerous attempts to hold down prices have worked—or not worked. The average prices of 1912 are taken as the 100 per cent pre-war normal. The following table shows how prices have been advancing:

December	Per Cent of Index Nos.
1913	104
1914	105
1915	105
1916	126
1917	157
1918	187
1919	197

Expects Reduction  
The index number for October, 1919, was 188. The Lever bill, which was supposed to lower food prices, took effect October 22. Then in November the index number jumped to 192, showing that there had been an increase, with this law against the profiteers in effect. Then in December the index number jumped to 197.

Howard Figg, special assistant attorney general, in charge of the campaign to lower the high cost of living, says the business men are co-operating with the department to lower costs. He expects to have prices down 25 per cent by June.

It will be interesting to read the index number on June 15.

GOT TO BE A NICE MAN TO  
COME TO UNITED STATES

LONDON.—Uncle Sam is fighting the Red menace where it grows. The American government is getting more particular every month about who is allowed to start for the United States.

Passport officials are continually "lightening up." I have talked recently with embassy and consular officers, and the story is the same everywhere.

The alien who wants to go to the United States now has to answer 31 formal questions and as many informal ones as the examiner thinks it advisable to ask. The sky's the limit.

Formal question No. 23 is: "Are you an anarchist?" Question No. 24, the latest added to the formal list, enlarges on that. It is as broad as it is long and covers all varieties of Reds and Red sympathizers.

That, and the other 30, must be answered in writing and signed. Another recent one is No. 26, inquiring "whether alien had been previously deported within one year."

Broad discretionary powers are left in the hands of the officials over there. Ways are provided for denying passports to the undesirable even if he doesn't wear a bomb on his coat label.

Sunt To Cure Hiccoughs  
A Spanish physician claims to have been very successful in curing stubborn cases of hiccoughs by this treatment: The patient lies down and draws up his knees until his thighs are pressed tightly to his abdomen, the lower part of the legs being pressed against the thighs by bending the knees. The position is held for several minutes. The effect of this is to press the diaphragm up against the abdominal organs up against the diaphragm and to sustain the pressure until the diaphragm ceases its spasmodic contraction.

Everyman—Here's \$5. Give me a piece of pie and a cup of coffee.  
Waiter—Say! We don't serve half portions here.—Judge.

## The Stage

Mable Garrison  
Mable Garrison who appears in Appleton on next Tuesday evening, is one of the leading operatic coloratura.

In short, she is a singer worthy to carry on the great traditions. The management of the Appleton Community Lecture and Artist Series feel that they are giving the people of Appleton and the Fox River Valley a treat. Miss Garrison is making only one other concert in Wisconsin. So again Appleton is leading.

It was said of her voice after one of the programs, "Ravishingly beautiful, at times like a thread of celestial light."

Fanchon-Marco Revue  
That the "thirty most beautiful girls in the world" will be found in support of the famous Fanchon and Marco in their glorious Revue, Let's Go! which

comes to the Appleton Theatre Feb. 12, is the proud boast of the stars themselves. That this is not the conventional exaggerated claim of the average organization is borne out by the enthusiastic superlatives of the critics of the San Francisco newspapers. Let's Go! held forth in the city by the Golden Gate for ten capacity weeks and only left then because of the pressure of other previously-made bookings. The fame of Fanchon and Marco themselves is country-wide and they are favorites everywhere. They were headliners in vaudeville for several seasons, but their clever work in Let's Go! discloses them at their clearest.

HARD TIMES DANCE AT GAIN-  
OIN'S HALL, MACKVILLE, FEB. 10-  
STECKER'S ORCHESTRA.

People living in many of the devastated areas of France enjoy lower prices than prevail in Paris.

"Z" is the least used letter. In ordinary books it occurs on an average twice in three thousand words.

## PASTOR GETS DANCE LICENSE FOR CHURCH

NORWICH.—The Rev. John Green, vicar of St. Luke's church, has obtained a music hall and dancing license for his church. "We'll jazz our way to glory," he says.

A man in St. Louis, arrested for stealing 80 pounds of metal, a hand-ful at a time, said he did it because he was "suffering a bad wooden leg" and wanted money to buy a new one.

## CHEWS MUSTACHE; MEANT OPERATION

LONDON.—Being a nervous man he chewed his mustache. He was ill. They operated at St. Bartholomew's Hospital and in his appendix wound the missing segments of the hirsute adornment.

Says the librarian of congress: "We meet people every day who cannot look up words in the dictionary because they have not learned their A B C alphabetical order."

## RADIUM USED TO RELIEVE MANY TUMOROUS GROWTHS

Tumors, while not in many cases fatal because of the success attained in operations, have long been the dread of the thousands afflicted by them. With operations postponed from time to time because of a natural dread of the knife and the hospital, patients usually put off treatment for this trouble until the success of the operation is seriously impaired and long suffering the result.

Radium has attained one of its greatest successes in the treatment of tumorous growths both malignant and non-malignant. The growths seem to fairly contract and disappear under the beneficial rays of this remarkable mineral.

There is no serious operation, no hospital, no long confinement to bed, or long absence from the office, workshop or home. The treatment demanded is of varied length and with a varied strength of emanation. In cases however requiring a maximum treatment, it is a matter of hours instead of weeks as was the case in operations.

Surgeons of national repute, who formerly used the knife and the knife only, have abandoned operations until it is found that condi-

tions are such that the operation must be made with radium used in conjunction.

Surgeons with the smallest possible number of failures in former treatment with operations, are now making equally as remarkable a record with radium with less discomfort to the patient.

No operation can leave the body the same physically. It may remove disease or the factor causing suffering and discomfort, but the tissues and oftentimes organs displaced by the operation never go back to their normal condition.

With radium, the tissues are not injured, organs are not in any way displaced or affected. Tumors of the uterus, so common as to form a large number of the cases, treated both surgically and with radium, respond to the latter in a way that leaves the patient as she was before the tumor appeared, with a possibility of producing and rearing a family.

Radium centers treat tumor cases in large numbers and the clinics are now demonstrating to the profession, methods of treatment which if applied by men of experience cannot fail to obtain results.

## AN ELECTRIC COFFEE PERCOLATOR

makes the most delicious coffee right on the table. Just turn on the current and in a few moments the perfect coffee will be ready. Come and have a cup with us. And while here we will take great pleasure in showing you many other electrical things that make house-keeping a joy and life much more worth living.

## PAIGE

The Most Beautiful Car in America

## The Car That Fulfills All Promises

The sense of satisfaction in owning a seven-passenger Paige Essex "Six-55" is two-fold.

Primarily, of course, the owner of a Paige Essex is gratified because his good judgment in choosing it is confirmed by the car's sterling qualities of reliability, sturdiness and luxurious comfort.

But there is an added satisfaction in owning the Essex because of its impressive appearance. It has all the distinctive beauty of higher priced cars, and none of the expensive disadvantages.

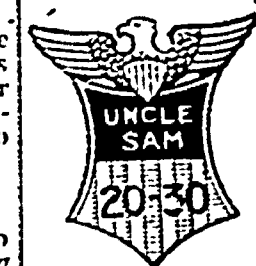

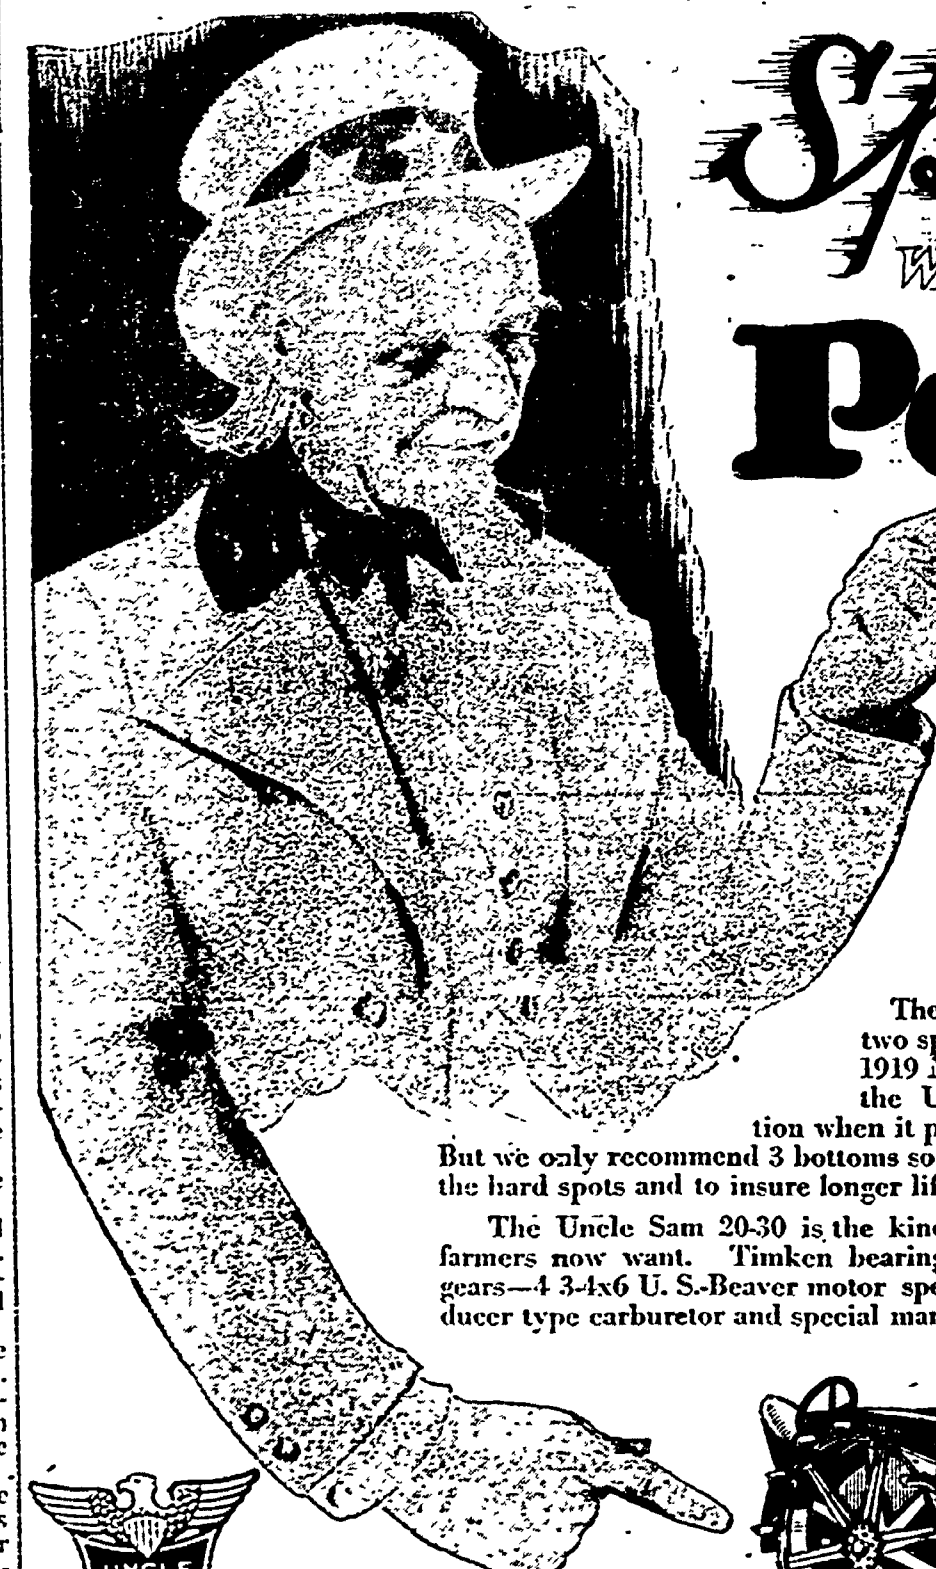

As a practical vehicle, free from the burden of excessive "up-keep," the Paige-Essex is given quite general preference among cars of seven-passenger size.

Essex, Six-55; Lexington, Six-55; Glenbrook, Six-42. Complete Line of Enclosed Cars.

## Uncle Sam 20-30 FARM TRACTOR

The Biggest Tractor  
Value on the Market

Speed  
when you want it  
Power  
all the time

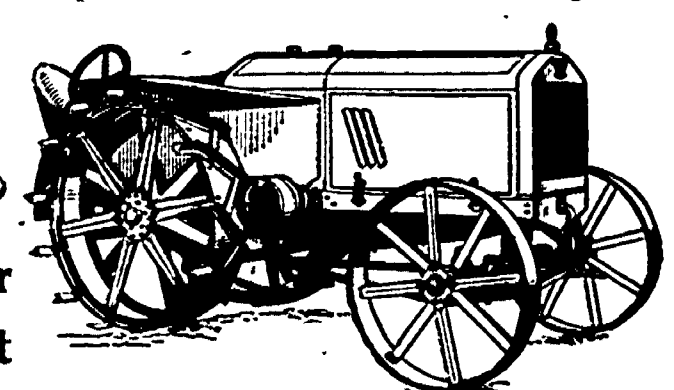

WE do not argue that all plowing should be done at high speed, for we believe the farmer is the best judge.

We do believe that he should have sufficient power in reserve to permit high speed plowing, harrowing and seeding when soil and weather conditions make it advisable. And having such reserve, it is unnecessary to provide an emergency low gear.

The gear ratios of the Uncle Sam Tractor give two speeds forward, 2 1/2 and 3 3/4 m. p. h. At the 1919 National Tractor Demonstration at Wichita, the Uncle Sam gave an impressive demonstration when it pulled four 14-inch bottoms at 3 3/4 m. p. h.

But we only recommend 3 bottoms so as always to have ample reserve power for the hard spots and to insure longer life to the motor.

The Uncle Sam 20-30 is the kind of quality tractor which discriminating farmers now want. Timken bearings throughout—U. S. Nuttall heat-treated gears—4 3/4x6 U. S. Beaver motor specially designed for kerosene—Bennet producer type carburetor and special manifolds—Dixie-insured ignition.

We are so crowded with orders from all parts of the world, for Uncle Sam Tractors, we must caution the farmers of Wisconsin to place their orders at the earliest possible moment—otherwise we may not be able to make delivery when wanted.

Illustrated Catalog and Full Information Upon Request.

## LEGAL NOTICE.

**NOTICE OF REFERENDUM ON PROPOSED CONSTITUTIONAL AMENDMENTS.**  
April 6, 1920.  
State of Wisconsin, County of Outagamie.  
Notice is hereby given that at the time of holding the regular spring, judicial and national delegate elections, to be held in the several towns, wards, villages and election districts of the state of Wisconsin, on the first Tuesday of April, 1920, being the sixth day of said month, in accordance with Section 1 of Article XII of the Constitution of the State of Wisconsin, and as directed by Chapters 49 and 64, Laws of Wisconsin for 1919, the following proposed amendments to the constitution of the State of Wisconsin, which were adopted by the Wisconsin Legislature at the regular sessions of 1917 and 1919, and published for three months as required by said Section 1 of Article XII of the Wisconsin Constitution, will be submitted to a vote of the Electors of this State for their ratification or rejection in such manner as is provided by law. (St. Res. No. 13, A.)

## JOINT RESOLUTION

No. 57, 1919  
To amend section 21 of Article IV of the constitution, relating to compensation of members of the legislature.  
Whereas, At the biennial session of the legislature for the year 1917, an amendment to the constitution was proposed and agreed to by a majority of the members elected to each of the two houses, which proposed amendment is as follows: "Resolved by the Assembly, the Senate concurring, That section 21 of article IV of the constitution be amended to read: (Article IV) Section 21. Each member of the legislature shall receive for his services . . . such sum . . . to be paid at such times and in such manner as shall be prescribed by law. . . . The compensation prescribed for members of the legislature immediately prior to the adoption of this amendment shall continue in force until changed by the legislature in a manner consistent with the

other provisions of this constitution," now, therefore, be it

Resolved by the Assembly, the Senate concurring, That the foregoing proposed amendment to the constitution of the State of Wisconsin be and the same is hereby agreed to by this legislature.

Note.—(If ratified this amendment will authorize any legislature to fix the compensation of members of the succeeding legislature at more or less than the present allowance of \$500 for the term of two years.) (St. Res. 100, S.)

## JOINT RESOLUTION

No. 92, 1919  
To amend sections 6 and 7 of article VII of the constitution of the state of Wisconsin, relating to circuit judges.  
Whereas, At the biennial session of the legislature for the year 1917, an amendment to the constitution was proposed and agreed to by a majority of the members elected to each of the two houses, which proposed amendment is as follows: "Resolved by the Assembly, the Senate concurring, That section 6, article VII, and section 7, article VII, of the constitution, be amended to read: (Article VII) Section 6. The legislature may alter the limits, decrease or increase the number of circuits, making them as compact and convenient as practicable, and bound by their county lines; but no such alteration, decrease or increase shall have the effect to remove a judge from office. In case of an increase in circuits, the judge or judges shall be elected as provided in this constitution and receive a permanent salary, but not less than that herein provided for judges of the circuit court. Section 7. For each circuit there shall be chosen by the qualified electors thereof one or more circuit judges, . . . as the legislature may, from time to time, authorize. . . . Every circuit judge shall reside in the circuit from which he is elected and shall hold office for such term and receive compensation as the legislature shall prescribe;" now, therefore, be it

Resolved by the Senate, the Assembly concurring, That the foregoing proposed amendment to the constitution of the state of Wisconsin be and the same is hereby agreed to by this legislature.

Note.—(If ratified this amendment will permit the legislature to abolish any judicial circuit at the expiration of the term of its circuit judge, to decrease the number of circuits by consolidation or otherwise, and to authorize one or more judges for any circuit.)

Given under my hand and official seal at the court house, in the city of Appleton, this 26th day of January, A. D. 1920.

Herman J. Kuamps, County Clerk. 2-27

## (BETWEEN APPLETON AND MENASHA)

## STONE DENIES HE AND GOMPERS ARE AT OUTS

Cleveland, O.—It is poppycock that Warren S. Stone, chief of the Brotherhood of Locomotive Engineers, is seeking to depose Samuel Gompers as president of the American Federation of Labor, according to Stone.

A New York paper speculated at length recently upon the possibility of a "royal fight" between Stone and Gompers for leadership in the American labor movement.

"I am not a member of the American Federation of Labor and hence not eligible for the presidency," said Stone. "Even if I were eligible I wouldn't want his job because it pays less than I am getting now. It is poppycock that I want Gompers' job and it's poppycock too, that I am going to start another federation of labor."

"My work is cut out for me here and is all I can attend to. The A. F. of L. believes in one method of operation and the brotherhood has another plan. There need be very little friction between us and that will not be personal so far as I am concerned."

The engineers are fathering a national cooperative movement and have invited the A. F. of L. to participate.

"I don't know whether it will," says Stone. "The A. F. of L. never enters a thing it can't dominate. The brotherhoods are willing to work with anyone for the good of labor and don't ask to be boss. That's the big difference."

Stone says that he is going to carry on with his fight for the Plumb plan and the cooperative movement and pay no heed to inter-labor political talk.

## Undertakers Organ

New York Times: As the relatives of the dead Americans buried in France are at least divided on the question of bringing them back, and as what seems to be a majority of the living soldiers who fought in the world war are more or less strongly opposed to the plan, why is it that we read of orders sent from Washington to American representatives in Paris to "press" the French government for the consent to the removal which on entirely reasonable grounds it has declared unwilling to give? Why does one senator and representative after another offer petitions for the undertaking of the great and terrible task—petitions with the purpose of which the senators and representatives not frequently declare themselves to be unsympathetic?

As in the case of congressional action on daylight saving repeal, so now there is a mystery that needs solution. Again is the inquirer into the mystery almost driven into the assumption that the demand comes at bottom from those whose motive is entirely mercenary.

## Big Business By Farmers

Farm and Home: Agitators' rant against big business finds no welcome in the farmers' new movement. Over 50,000 Illinois farmers pay \$10 a year for membership in their county bureau and state association. It pays \$10,000 a year to its manager, D. O. Thompson, one of the west's best businessmen, while President H. J. Sconce farms 4,000 acres worth over \$1,000,000. It contracts for the entire output of a Tennessee phosphate mine to be shipped in trainloads direct to its members. New England and New York dairymen's corporations represent millions of money. Iowa's farmers' federation will have an income of \$250,000 for use in cooperative buying and selling. Farming is the biggest business on earth. It has lacked the ablest business management, which it is now to receive.

## HEIRS COME IN FOR LEGACY OF \$147,000

Black River Falls—John Stanton of this city and Dora Hersch, Superior, Wis., heirs of Peter Stanton, New York City, have been notified that they have come in for a legacy of \$147,000 in money, bringing a monthly rental of \$400.

The foundation of this fortune reads like a romance. Over sixty years ago the father of John Stanton decided to his brother certain property with the proviso that should the brother die without heir, the property should descend to his heirs.

One daughter was born of the union of Peter Stanton, she dying some thirty years ago, the wife dying some years later, which left no direct heir, and under the terms of the deed the property went to the above heirs.

Judge E. H. Gary, chairman of the U. S. Steel Corporation, frequently gets up in the middle of the night to work out some project which calls for deep thinking.

Of the men inducted into the service during the war, 1,200,000 came from the farms.

## In The Churches

THE DIAMOND BRAND. Sold by druggists everywhere. Take no other. Buy only the Diamond Brand Pills. Sold by druggists everywhere.

## HELENA WOMAN ILL IN LOCAL HOSPITAL

Helena—Mrs. Herman Schinke, mother of Mrs. August Koehler, was buried in Helena cemetery Monday.

Over twenty families are confined to their homes with influenza. None are seriously ill.

Mrs. Patrick McClure, Jr. was taken to St. Elizabeth hospital last Monday and submitted to an operation for appendicitis.

Mrs. Mike Long and daughter Mildred of Oshkosh, visited the former's sister, Mrs. Cunningham, Thursday and Friday.

Arthur Knapp, Herman Knapp and Joseph Cunningham are working on the roads with their teams.

## STUDENT RECEIVES POSITION IN BANK

Sheboygan—Arno Hoppert, Phi Beta Kappa graduate of the University of Wisconsin and valedictorian of Sheboygan high school class of 1915, will sail February 21 for Lima, Peru, where he will assume a lucrative position in a branch bank of the National City Bank of New York. Mr. Hoppert was offered a position by the bank after its officials had learned that he was the highest ranking student in the commerce course at the university.

## RAISIN SALES GROW LARGER AS THIRST BECOMES MORE INTENSE

Appleton Grocers Find Steady Increase in Sale of Raisins Since J. Barleycorn Passed Out—Demand for Corn Meal

"Never mind, we'll make our own from now on," said a disgruntled barfly the other day in a downtown saloon.

"Just so much hot air," said the man at his elbow. "You'll never get that far."

But just ask your grocer if certain of his sales have not increased, and he'll whisper that they have. It is an actual fact that some Appleton people, not many, are experimenting with little moonshine plants of their own. Since John Barleycorn's funeral Jan. 16, one grocer has had frequent calls for grapes in clusters. One customer bought 70 pounds at one time. Another has noticed an increased sale of raisins containing their seeds, and the household size. Raisins make fairly good wine, they are told, providing a process of aging is carried out, and some are actually trying it out, according to little rumors that persist in circulating.

Another merchant consulted seems to have a trade following of a group with a different formula. His raisin sale is about average, but he has abnormal sales of corn meal. Corn has always been known for its whiskey-making qualities, so perhaps someone has conceived a notion that has some of the old time kick.

That other sections of the state are going at home brewing in a daring manner is proven by the tremendous increase in the sale of raisins by wholesalers. Not only has the price jumped, but Appleton retailers find it difficult to obtain an ample supply. One predicts that raisins may go up to 50 cents a pound in the near future. This year, most of the industry is discouraged or stopped. Of course all this is in violation of the law and the man who is caught will pay heavily for his drinks, but it seems that the bar fly and the toper must have their booze. It's a poor way to get rid of that bright red nose.

## COMPEL SUFFERERS WITH COLDS TO STAY IN THEIR OWN HOMES

PUBLIC OPINION WILL FORCE USE OF EVERY PRECAUTION TO PREVENT CONTAGION

(Special to Post-Crescent) Madison, Wis.—It is the opinion of the state board of health, a bulletin of that department announced today, that the time is near at hand when all persons with a severe cold will be compelled, by public sentiment if not by state law, to remain at home and use every effort possible to prevent communication of the infection to other persons.

On account of the mild type of the epidemic this year, many cases are treated as severe colds and consequently the general public is not protected when persons with a severe cold frequent places or come in contact with a large number of people in a business way.

"It appears, from a careful study of the present epidemic," the board says, "that a case of so-called severe cold with one individual may develop into a severe type of influenza with prostration in another individual, possibly complicated with pneumonia. Where public gatherings are not prohibited by local regulations the attendance at all such gatherings of anyone who has a severe cold, or who is possibly ill, should be strictly prohibited. Such an individual, if careless, can infect an entire community as has happened, repeatedly in the present epidemic."

The control measures are being generally observed is the experience to date. Today's bulletin says:

"The state board of health is greatly pleased with the vigorous way in which the state rules for the better prevention and control of influenza or la grippe are being enforced. The daily reports received from every section of the state indicate that an earnest effort is being made to report all cases to the local health officer at once, and to see that the homes are disinfected. The strict observance of these preventive measures will, in the board's opinion, effectively stamp out the epidemic."

## MENASHA ASSOCIATION GOES OUT OF EXISTENCE

(Special to Post-Crescent) Madison, Wis.—Articles have been filed with the corporations department of the Secretary of States office as follows:

Wisconsin Stock Farms Co., Chetek, amendment changing from 3 to 5 directors.

The Columbus Home Association, Antigo, \$20,000. To operate club house.

Bemis-Hooper-Hays Co., Oshkosh.

## FLU IS NOT BAD HERE, STATE OFFICER SAYS

DR. LEONARD SPENCER ASSERTS EPIDEMIC IS MORE SEVERE IN MANY OTHER CITIES

Appleton has been very fortunate thus far in the small amount of influenza that has shown itself here as compared to neighboring cities.

That is the way Dr. Leonard E. Spencer of Wausau, inspector for the State Board of Health sums up the local situation. He arrived here on Tuesday to inspect conditions both as to the epidemic and other matters incident to his work. In his conference with Dr. H. E. Ellsworth, city health officer, he stated that he found the affairs of the city's health administration in excellent shape. The question of whether to place a ban on public gatherings was discussed, and the decision reached that there was really no cause for alarm, as the number of cases of sickness was light compared to other cities. In Wausau, Fond du Lac, Oshkosh, Marinette and other cities, he stated, everything in the way of amusements is off for the present, churches and schools being allowed to continue with the promise of exercising caution.

In discussing the contention that cases of influenza are not properly reported, Dr. Spencer made it plain to Dr. Ellsworth that every case of influenza must be reported, whether a doctor is called or not. It is up to the head of the family, he stated, to report the case to the health officer, and the family is held liable if it does not do so.

Y. M. C. A. huts formerly use in Germany with the army of occupation have been floated down the Rhine to Belgium, where they are helping to solve the housing problem in the devastated districts by being used as lodgings and assembly halls.

A plant in Estonia is obtaining more gas from shale than from a similar quantity of coal and, satisfactory results have been obtained from experiments with firing locomotives with shale.

## WETTENGEL SAID TO HAVE EYE ON SEAT IN BADGER SENATE

REPORT FROM MADISON ALSO INDICATES THAT C. B. BALLARD WOULD LIKE TO BE ELECTED

(Special to Post-Crescent)

Madison, Wis.—The announcement of Senator Henry Huber, Stoughton, that he will be a candidate for re-election next fall has started inquiries as to the probable candidacy of the other fifteen senators whose terms expire this year, most of whom are expected to seek re-election.

Under the constitution the members of the senate from the odd numbered districts are elected one year for four years and those from the even numbered districts are elected two years later. This year the sixteen senators from the even numbered districts are to be chosen.

Timothy Burke, who has been representing Brown and Oconto counties in the senate since 1908, is expected to be returned without opposition.

Herman C. Schultz, Milwaukee, who is just completing his first term in the senate may not seek re-election although he has made no announcement as yet. After serving through one session of the legislature, efforts were made to have him resign from the senate or his position as secretary of the Milwaukee Election Commission, but he refused to do either. He may, however, decline to return to the senate, as no question can be raised about his position with the Election Commission.

William C. Zumbach, socialist leader in the senate, is expected to seek re-election from the sixth district, Milwaukee.

It is likely that Louis A. Foss, eighth district, Milwaukee, will not seek re-election unless compelled to do so to prevent another Socialist being sent to the senate from Milwaukee. Senator Foss was elected on a fusion ticket over Edward Melms, at a special election Jan. 2, 1918, to fill the unexpired term of Frank Raguse who was expelled during the 1917 session of the legislature.

George B. Skogmo will be missed in the senate next year after eight years service. He was twice elected to the senate from Tenth district, but recently removed from River Falls to Milwaukee and it is expected will not be a candidate for the senate, although he has been mentioned as probable candidate for secretary of state or attorney general.

A. H. Wilkinson, Dayfield, who as chairman of the joint finance committee at the 1919 session broke all records for expediting the financial bills, will doubtless be returned to the senate from the Twelfth district without opposition.

Antone Kuckuck, Shawano, who has represented the Fourth district, Outagamie and Shawano counties, for the last four years, would probably accept the office again if assured re-election without a contest, but will hardly make a fight for it. Assemblyman C. B. Ballard, Appleton, is said to have his eyes on the senatorial seat, while Fred Felix Wettengel, Appleton insurance man, is also said to have aspirations to become senator.

Senator Henry E. Roedhe, Fennimore, is expected to be returned to the senate from the Sixteenth district.

If as is expected, Dr. Albert J. Pullen, North Fond du Lac, becomes a candidate for Lieutenant Governor, he will not be returned to the senate from the Eighteenth district.

Senator Theo Benfer, Sheboygan, Lawrence E. Cunningham, Beloit and Isaac P. Witter, Grand Rapids, are expected to be returned from the Twentieth, Twenty-Second and Twenty-Fourth districts.

Senator Huber, La Follette champion, will have opposition in the Twenty-Sixth district.

Being a candidate for the republican nomination for Governor, Senator Roy P. Wilcox will not seek re-nomination for the senate from the Twenty-eighth district.

Senators Willard T. Stevens, Rhineland and Eugene F. Clark, Galesville, will probably be returned to the senate from the Thirtieth and Thirty-Second districts without opposition.

Miss Eva Booth, upon whom the Distinguished Service medal was recently bestowed in recognition of her work during the war, has completed five years as commander of the Salvation Army forces in the United States.

## Watch, Clock, Jewelry Repairing

We are in a position to give you a prompt and satisfactory job.

## HENRY N. MARX

Jeweler and Optometrist.  
738 College Ave.

## New York Maple Syrup

Home-made on Western New York Farms. Famed for purity and quality.

Your order now for Early Spring delivery insures your supply of real syrup when the sap begins to run.

Fish hooks have been made on exactly the same design for 2,000 years.

PHILIP'S POSTPONE TRIP TO EUROPE

Marquette—Bishop Paul Rhode of Green Bay and the Rev. Father Poczcha, polish pastor of this city, have abandoned a contemplated trip to Europe. They had made all plans for a visit to Rome and then a trip to Poland, their fatherland, and had obtained passports, but advised this week from Rome suggested that they postpone the journey until next year because of unsettled conditions in Europe.

## A Very Important Factor in a Vacuum Cleaner is the Brush

UNDER VIEW OF REGINA VACUUM CLEANER MODEL "K" SHOWING POSITIVE GEAR DRIVEN FLOATING BRUSHES. EASILY REMOVED. NO BELT TO BREAK

The Regina has a gear-driven floating brush incased in a dust-proof gear-case and in the operation of the cleaner the brush is driven in an opposite direction to which the cleaner is being used; this loosens all threads and waste; thus enabling the suction to draw them into the bag.

VACUUM CLEANER

The Regina is the only electric driven vacuum cleaner having such a floating brush.

The Regina Vacuum Cleaner does all that is expected of it; it cleans and sweeps your carpets, rugs, mattresses, draperies, etc. most thoroughly; without causing injury to the most delicate fabrics.

Today, we offer the most efficient Vacuum Cleaner.

THE REGINA

on terms convenient to suit all pocketbooks.

\$5.00 will bring a Regina to your home.
